<https://hackforums.net/member.php?action=profile&uid=839023> < This little runt scammed me for \$85 bitcoin ? ? ? ?

Didn't deal on site but we dealt on kik. Was purchasing a gamertag off of him and we agreed upon me sending half of the money first and the rest after he had sold me the gamertag. I dealt with him just under two weeks ago and deal went smooth so I trusted him a little, just goes to show you can't trust anyone on the internet. This is like the 5th report on HF where i've been scammed out of hundreds. You kids really need to get a job and make something of your life instead of stealing from other people. It's actually sad, I feel sorry for you.

He pm'ed me his kik on site and it has no monetary value so clearly this is him. He's currently banned for rep abuse.

DWC with him.
