Thread: [Scammed by Themis for \\$20 AGC | UID = 3429577 \[ RESOLVED \]](#)

**Deadmau5** - December 14, 2017, 9:30 am

I've exchanged AGC with Themis without any issues in the past.  
So i went first to exchange my 20\$ AGC .com for his 75% PayPal.

After i sent him the code,he stopped replying me.I checked the code on Amazon and saw that it was redeemed.

When i noticed that he wasn't replying to any of my messages i left a post on his sales thread mentioning that it's been a few hours since i've sent him my AGC and that he's not replying to any of my messages and that i'll update it once the deal is closed.He didn't like it and negged me saying "Don't Shitpost" when clearly i wasn't trying to.

A few hours ago he messaged me saying that his Paypal wasn't sending money and that he's trying to transfer money to his friend's account.

I replied to his message.But he didn't reply me back even though he came online after that.

I'm hoping this gets resolved.I'll close this dispute once/if this gets resolved.

Edit : Themis just sent me the payment and i'm closing this dispute

Who scams for \$20???? Man some people are just really shitty wtf

He just pay with the money that he didn't earn yet, as usually.  
You will get that refunded most likely after he sell the code.

That's not how it works.

He's not an employee waiting after his pay check.

He sent him the code and should get paid right after if everything works. It is not OP's problem what the buyer does with it.

I did many exchanges with Themis (yesterday i had 200 EURO deal with him) and all deals went smooth.. sometimes he needs a more time to answer but u can bet that he really doesnt need your 20 USD..he is making 100x bigger deals daily without scamming
