Maybe can but I'm G5 which is around my elo skill so I might not be able to power you through but we'll have 50%+ wr. My ban comes up in a few days for toxic PM me if you want, but I'm sure there's more skilled players on here willing to help you.

Hello, I am a former diamond III player.

I've been playing in preseason again after a 2year break.

I had boosted some players up to master tier. and I can duo boost you for a price that is very cheap and topping al the prices on the net 100% sure.

I would like to boost you also so you could reply on my thread on a forum so I get some rep to boost players.

Quick edit: I am playing on euw currently. Friends could help me out with giving their account on any other server if you reply to this.

You were boosting people up to Master tier, when you were only D3? Good meme.

Bro, I needed to be minimum Diamond 1 to apply for the job. I had no interests in climbing my own account as it was the preseason.

I dont really mind you not believing me. but your arrogancy is quite equal to your elo. gl finding someone better than me lellelelel meme eksdee
