I bought a mentoring for 300\$ from Tech. He just gave me 3 weird tutorials without much mentoring. I just gonna post how i send him the ethereum. The tutorial he sent me through discord. If a moderator wants the chatlog from the tutorial i can send them.

DuelPit - December 15, 2017, 10:40 am

I've received mentoring from Tech before and had great success, he's definitely not a scammer at all, just put work into the methods and you'll achieve success.
