Thread: [How do i change my primary user group?](#)

Ben Shapiro - December 15, 2017, 1:17 pm

I've seen users who have changed their primary user group to the group they are apart so it doesn't just display the "HF l33t" icon. I can't for the life of me find where the option to change is at and I've looked in the [Help Docs](#).

Thanks!

FYI you are changing your "display group" and not your "primary group". Primary groups include: Non-upgraded, L33t, Ub3r, Staff, Admin. All other groups are secondary groups. Display group is just what is displayed.
