also found a dog along the way, but aye tell me what you think! Still grinding at the content.

Editing and such is excellent, really looks the part. So kudos for that. Not my kind of subject, but looks a lot like vids that do well, and if you do create a lot of content that is as well made as this and which people enjoy then I can see it becoming really big.

Just takes discipline to keep it regular and work hard, it'll pay off in the long run.

Nice work.

What camera are you using? I was planning on buying a rebel sl2

Arizonalce - December 15, 2017, 3:01 pm

Like your editing, 500 subs with that many vids is impressive.

Good luck my dude.

Ben Shapiro - December 15, 2017, 3:10 pm

Wtf your editing is like next level, i've never seen no one do what you were doing with that blanket that shit was legit.

Like not on some dick riding shit I think vlogs are cringe as hell but I will be watching yours, you make it actually entertaining.

Your channel will definitely blow up if you keep uploading. The editing and video quality is on point plus its actually entertaining compared to some other vloggers.

"bruh"

This video looks like you stole the generic "mainstream" editing style and crappy humor straight off other people. Be yourself, think of a new editing style/video content/jokes and be an original act your audience will appreciate that shit.

JUAN9087™ - December 16, 2017, 11:01 pm

sick editing skills, if you want to make your videos long then focus on quality content, not much of the same scene people get bored unless its top quality shit.
