Thread: [What are good champs to main for top?](#)

coolerneo - December 16, 2017, 10:24 am

So i've been playing more or less since s3 with many breaks, my peak was plat2 in s4 and i mostly played top/jungle. Now after i came back from a longer break i hardly climbed out of silver while playing top mostly and struggling to find a champ with which i could carry my team consistently.

I would be thankful if you recommended me some top champs that i should learn/main that have high carrying potential or are pretty broken rn

Maokai, Maokai, and Maokai. That should be about it.

Become a god at Camille, I swear a good Camille can win games so easily.

Hey man he probably sucks anyways.

Goku???? - December 16, 2017, 2:35 pm

Illaowi or Maokai are really good in top lane!

zzmr1cool - December 16, 2017, 5:31 pm

i still like shaco ap, like pink ward can be strong if you get it down something off meta but counters alot.

RapRob - December 17, 2017, 4:50 am

tank karma, new meta and op asf

ForBobo - December 17, 2017, 3:31 pm

Fiora and Gangplank man, all day.

Mr Brown - December 17, 2017, 3:33 pm

1 month playing trundle/trynd i know its boring but very OP top

Blue Sapphire - January 2, 2018, 5:27 pm

Its really up to your own style, most people use trynda nasus and darius to carry i think.

Modafinil - January 2, 2018, 11:51 pm

illaoi is literally the best thing you could pick right now, aatrox is pretty good too, with all the buffs hes getting.

kajutero - January 3, 2018, 7:29 pm

Try Ornn he's a fucking beast !

J?ey - January 3, 2018, 9:18 pm

Play Maokai and ban Ornn.

C00000000000000N - January 4, 2018, 10:35 am

Illaoi is a free win bruh.

RedRevolt - January 5, 2018, 2:49 pm

A lot of these are irrelevant lol. Illaoi is mad busted but I got no respect for her so I don't play her. A champ that I would recommend is Nasus. He destroys lower elos because they have no idea how to play against him.

woolfanite - January 16, 2018, 7:50 am

if you want to get games and solo carry main Irellia she is mechanical and stupid strong but if you fall behind you will be fucked but that's more in High Elo and I am guessing you are silver (no flame)

C-Only - January 16, 2018, 2:33 pm

Well I'm a pleb, and the splitpush titanic Jax got me a long way.

If you're looking for something more chill, try with shaco top. It's a weird playstyle, as it almost becomes a minigame where you can relax top, and the satisfaction from destroying your opponent is the best I've had with any champs in league.

Garen. If you know the basics Garen can pull you out.
