SELLING 1 MORE COPY!

I'm selling a blackhat cryptocurrency method which is my main method i daily monetize with online and therefore i'm only willing to sell 2 copys to prevent any kind of saturation for myself.

I've decided to sell due to scaling reason, i'm planning on taking this method to a bigger scale and therefore require top dollar fast to make this happen.

The method provides a random monthly income from \$3.100 - \$17.600 which most likely sound to much for some but obviously i can proof this.

Willing to proof my earnings to live through teamviewer or skypecall so you can check the earnings yourself in my wallets.

I've been monetizing for 8+ months with this now so i can show alot of earnings that validate my claims.

The method has nothing to do with scam icos, hyips, ewhoring, selling, cracking etc..

Not looking for time waisters, if you dont have the funds then dont talk.

Earnings are in Bitcoins, Bitcoin Cash, Ethereum, Monero and Litecoin.

You are required to create a wallet with all 5 of these currencies.

I give properly mentoring with the method and ofcourse support afterwards aswell.

PRICE: \$3100 (Cryptos)

Based on the lowest i've ever earned in a month since running this - average earnings are between 4-8k.

I'm willing to accept an offer for the first copy.

Currently available Copys: 0

2 SOLD

How long does the method take to complete? Is it an autopilot thing or does it require hours upon hours of work? And how are the earnings decided? How is it blackhat? Does it involve carding/fraud? Scamming?

No scamming, no fraud.

Setup takes about 3+ hours.

You can scale.

It's semi-autopilot, no social contact is required but you need to daily maintain for 30+ minutes.

I've PMed you with more info.

Thanks

I've never understood, at a price this high, why wouldnt you only sell with highly trusted users and agree that they will pay you all money they make off the method until you get the amount you want.
