Thread: [EWHORING SNAPCHAT METHOD! + HOW TO GET TRAFFIC \[FREE\] \[NOOB FRIENDLY\]](#)

007 - December 17, 2017, 3:18 am

The SnapChat method

Requirements:

an iOS device

an eWhore pack

SE Skills (get one here: <https://hackforums.net/showthread.php?tid=5802171> by Silver Haz3)

A Snapchat account for your girl

A PayPal / Amazon account for your girl

Step 1: Downloading snapchat+

If you want to ewhore on snapchat, you will need a tweaked version of it. Otherwise people can see that your photos are from your gallery instead of live.

How to download snapchat+

First go to [Tweakbox](#)

Install TweakBox

Open TweakBox

Go to APPS

Go to Tweaked Apps

Install Snapchat++

Now log in with your ewhore snapchat account, or make one if you don't have one yet.

This is also the moment to get a pack / amazon / paypal account if you don't have one yet.

Step 2: Understanding what you're going to do

Basically, youre going to sell "Premium" which is a secondary account where you post nude pictures of the girl.

How to do this:

After getting high amounts of traffic, you have to post 1 - 3+ times a day, of a personal life of your girl. So like "Goodmorning" and non nude selfies.

In the evening, you can post semi nude selfies, and say that you're selling premium.

Now people will msg you saying that they might want to buy premium, and you Social Engineer them into buying it.

Step 3: GETTING THE TRAFFIC

I will show you 3 methods for getting Traffic.

Method 1:

Post your snapchat on chatboxes / snapchat usernames sites/apps.

Method 2:

Do shoutout for shoutout with other ewhorers (For example; reply that you want to do shoutout for shoutout, and wait for people to reply to you, or PM you willing to do it.)

Method 3:

Make a matching instagram account, search for Hastags like #Nike or #Adidas, search for 18 - 22 year old guys, DM them that you're willing to send them a nude or 2 if they shoutout your snapchat.

Step 4: Profit

Just keep posting that you're selling premium every evening, and you will get sales eventually. You can send them your PayPal link or your amazon account.

Good luck!

So,me not having an iOS device mean i am fucked? isnt selling nudes easier and better than selling premium?

(Dec 17, 2017 04:33 AM)`KSI Wrote: [\[CITE\]](#) So,me not having an iOS device mean i am fucked? isnt selling nudes easier and better than selling premium?

Basically, selling nudes takes so much effort and time compared to selling premium. This method will take 1 - 2 hours max per day. The selling nudes method takes way more time. ?

(Dec 17, 2017 04:33 AM)`KSI Wrote: [\[CITE\]](#) So,me not having an iOS device mean i am fucked? isnt selling nudes easier and better than selling premium?

And if you have an android devie, you can rather use the Kik method. Will make a TUT for that in a moment.

Kechar - December 17, 2017, 3:44 am

You could maybe add the method with Snaptools or the sticker method for android devices.

Do you have to create a secondary account for the premium? If I'm not mistaken I think I saw an option you could create like a group of some sort and invite just the ones u choose.

EliseW95 - January 4, 2018, 1:07 pm

So in the past I used the sticker method on Android. I don't have an android device anymore and instead have a shitty iPad Mini. When I try to send a pic with SC++ the pic always comes out really

blurry and fake looking. Same goes for any text or emojis I add to the pic. Anyone know of a fix for this?

There are no tweaked snapchats on android, at least no free ones. And I dont know any paid ones, you could look into the sticker method, but idk how that works.

Good luck!

can you tell me which is the difference between a regular snap and a snap ++

extense - June 26, 2018, 6:32 am

Hello, what do I do when it says, Oh no! you are trying to acces from third party app? when Im trying to make new account on snap++? thanks for help

K0les_M1 - June 26, 2018, 9:47 am

(Jun 24, 2018 04:11 AM)Winston95 Wrote: [\[CITE\]](#) can you tell me which is the difference between a regular snap and a snap ++

Regular snap only allows you to send pictures as if you took them out your gallery, however, to look more legit if you have snap++ you can send pictures and it will show up as if you just took them.

There's also many other features but that's the one most important for e-whoring.

007 - July 18, 2018, 12:02 pm

To everyone getting an error, I currently only use the kik methode since the snapchat one is too saturated at the time. You could read my tutorial on how to ewhore on kik, sadly I cannot help y'all out with the snapchat method anymore.
