Thread: [Take a break from your typical Hollywood movies.](#)

M?xim - December 17, 2017, 6:05 pm

Enough with the cringeworthy Fast and Furious type of movies for a while.

Watch this instead:

[Video: <https://www.youtube.com/watch?v=oXGm9Vlfx4w>]

It's a beautiful movie about Srinivasa Ramanujan who in the 1910s revolutionized the world of mathematics.

That's how i would describe it at least.

Steve - December 17, 2017, 9:45 pm

Hey! This actually looks like a good movie! I've been in plenty of heavy high-level math classes so I understand how seriously they take these "proofs". Definitely something I would want to watch.

I think you may have posted this in the wrong place ?

Steve - December 17, 2017, 9:49 pm

That being said, just knowing the theorems and not having the capability of deriving them or logically reason/prove them severely limits his intelligence.
