Thread: [EBOOK Giveaway #Free -Learn BugBounty Hunting / Pentesting etc.](#)

??¢??? - December 18, 2017, 11:55 am

Hey guys, Recently ,I wrote a book , which is titled:

It has taken me a year to write it . Obviously it is available for purchase for those of you who wish to buy it . But, since Hackforums is where i started my journey and i want to give it back to the community . I am doing a giveaway . All i ask in return is a Review/Rating of this book on Amazon.

This book may not contain basic beginners stuff, i have tried including all the uncommon bugs, their exploitation etc. of everything i knew . Any sort of feedback is welcome . ?

How to get it ?

Go to the Amazon link mentioned below or by clicking [here](#) .

Leave a Rating for the book (Just takes 2 seconds) , review is a ++ for me and would really help me promote this .

Post on the thread and i will PM you the link .

If you want to buy it or recommend it to your friends :

you should probably just give out 100% off coupons on Amazon so people can leave the review and to keep out lame leechers on this thread.
