Thread: [Scammed by Rysko UID: 3001152](#)

nanohits - December 20, 2017, 3:19 pm

I bought one of his money making methods on this thread:

<https://hackforums.net/showthread.php?tid=5762402>

Paid \$200 in BTC to this guy after a lot of promising chat on Skype.

Proof of payment here: <https://prnt.sc/hqa3dz>

After setup he sent me an invite to the Discord group.

<https://prnt.sc/hqa2by>

He said set up some stuff and he will start the process. This was around 9th of December. So I kept waiting and the guy kept dodging till I posted on his thread saying I didnt hear back. He immediately then Skyped back saying Im back and please remove the negative post on the thread. So decided next day we will go through everything. Next day rolls around and he says I will add you to the Discord group where I met a few fellow members all of whom were still waiting and frustrated that nothin has happened.

Then I started raising a bit more noise and he gave me some methods not even related to what he was selling. 2 crappy methods in word doc file and one that involves E-whoring and AGC. I am like wtf paid \$200 for this shit. I asked him why no one on the forum posted any reviews and he said members in there were too busy making shit load of money. When I finally started chatting with the team about 4 of them, they all said they were still waiting and were conned by him.

Few more days went by and he said sorry guys I have exams on the 14th and after that he will be totally free to start the training. That date went by and no sign of Rysko and we all started making noise on Discord. I setup another channel for the team members and one of the members said he started a dispute and gave a link. Rysko got in there and his comment was CHILDISH. You can see that discussion here: <http://prntscr.com/hqaeck>

There have been at least 5 people scammed on this worth over \$1000. I am sure the others will also file disputes. This guy is a pure scammer. Dont buy anything he sells. Tries to sell snake oil and gets away with it!!

I hope we can get our money back, but somehow I doubt it.

In the same boat.

I don't understand how this guy can be so negligent with such a positive rep.

Probably because a lot of us cant yet give a negative rep due to our status?

Neutral's give the same ability. It's the ability to give your experience/opinions on a certain person, it's just that the negs pop out more.

To top it off he has now banned me from the his group thread on Discord. What a piece of work!

Woods - December 20, 2017, 6:24 pm

He has two scam reports open on him, he will most likely just run off with \$400

Theres at least 5 in that group that I know of. I am sure they will all open up a report too. So that will soon add up to \$1000.

The interesting thing is that he has a few more current threads still trying to sell stuff.

most of his rep is built through exchanging vouches and giving out instagram likes (and small exchanges)

he is most likely a multi, this account gets banned, he'll be back in a month

Looks like he has chosen to ignore and not bother anymore. Wonder if he has new threads in the marketplace trying to scam new people.

nanohits - December 31, 2017, 12:35 am

Still I have nothing from this scammer. He has literally disappeared!!

Fixcolus - January 5, 2018, 8:18 am

this really suckss man go look foward to next deal but with a midlle man..

nanohits - January 6, 2018, 2:50 pm

Well this was supposed to be an Ebook and some training. Not sure how a middle man would help in this case.

I think this guy has gone for good, probably came back as another user.

Middleman should've held the funds until you earned back X amount of money.

Who does that these days with an ebook? I am sure you sell Ebooks and you dont accept these kind of middlemen scenarios.
