Thread: [What Should I Hold For 1 Year?](#)

Trust. - December 21, 2017, 8:24 am

I am going to put a large investment into 1-2 coins and not touch them for an entire year. What do you suggest will land me on the moon in late 2018?

virus - December 21, 2017, 8:27 am

i would go for ETH, BTC, BCH, (XRP?)

JELLY?IsH - December 21, 2017, 8:28 am

Ripple, Bitcoin - I'm holding these two.

Nymphomaniac - December 21, 2017, 8:40 am

Personally I'd go for ETH, LTC, ARK

Pim Fortuyn - December 21, 2017, 8:46 am

Interesting, kinda curious what you're gonna settle on.

AssGang - December 21, 2017, 8:49 am

I was debating on PotCoin or HempCoin

Stockholm - December 21, 2017, 8:54 am

Eth, Ltc, Ripple, Ada? I hold Ripple & Ada long -term

Ram - December 21, 2017, 10:17 am

ARK, ETC , BTC, BCH, LTC, IOTA.

Lauren Southern - December 21, 2017, 10:23 am

I'm holding ripple longterm. probably going to get in on more alts soon.

Palmaa - December 21, 2017, 10:30 am

Those holding ripple for longterm do note the large supply of coins

I'd say hold ETH. It should definitely crack 1 grand soon

xanzi - December 21, 2017, 10:35 am

I really hope so, i just bought 30 ETH :D my first big investment

jihas - December 21, 2017, 10:48 am

XLM.

From the founder of Ripple, Partnerships with banks & IBM. Now getting into ICO space as well.

SIM-1589588 - December 21, 2017, 10:49 am

Instead of Ripple I will suggest you to invest in NEM for a year and other coins you should hold is

ethereum and LISK for good gains.

<https://globalcoinreport.com/lisk-lsk-hit-100/>

XLM/XRP are good for 2-3 years

Hash G. - December 21, 2017, 11:12 am

XRP, NEO, OMG, ETH, WTC, ARK...

Many of the top 20 coins on CMC are good calls anyway.

Mintos - December 21, 2017, 11:24 am

You can hold my-----> and tenx pay

The Godfather - December 21, 2017, 11:24 am

ARK is my #1 longterm hold

I'll see you all in my lambo ?

Trust. - December 21, 2017, 11:50 am

Do you think Ark still has moon shooting potential? When I look at it's amount in circulation and low price, I see lots of room for it. I'm looking for some 1000-2000% moon shots for the Lambo. Jk I want to purchase a home for muh fam ?

What do you all think of IOTA? Price seems high at this point for its high circulation count, but Bosch recently invested in it.

Lauren Southern - December 21, 2017, 11:53 am

Same bud. I'm tryna make enough to buy another house.

Anything top 15 on CMC is a good choice.

ajax000 - December 21, 2017, 11:54 am

look on SONM, undervalued as F... , global decentralized supercomputer network,
<http://www.sonm.io>

first test version will be available on 25 Dec.

Frukt - December 21, 2017, 3:14 pm

I would drop just 5% of the portfolio in different coins that are low marketcap.

Everyone has been suggesting all the high ones but they would have as big ROI in one year as a "shitcoin" might have.

The rest I would put in 40% ETH, 35% BTC, 10% XRP and 10% BCH

Just my cup of tea

Luminox - December 21, 2017, 3:27 pm

IOTA/ARK is the way to go

Legacy © - December 21, 2017, 3:31 pm

I am going to hold WTC and ICX for 1 year. Do your research about them.

ajax000 - December 21, 2017, 3:39 pm

on 25 December SONM will release MVP first test working global decentralized supercomputer something like Amazon Cloud but decentralized :) they are the first much better than other supercomputer projects... im pretty sure huge pump will come, but im HOLDING for long term till 2020 minimum it will be huge.

xanzi - December 21, 2017, 6:00 pm

Guys does anyone has thoughts about ETH? will it go up again or dip down even more? when can we expect 900\$?

Andorod77 - December 21, 2017, 6:07 pm

Definitely go for ETH, LTC, XRP

Cimex - December 21, 2017, 6:15 pm

I am going to suggest Electroneum. It is currently cheap and it will go far.

ajax000 - December 21, 2017, 6:16 pm

(Dec 21, 2017 07:07 PM)Andorod77 Wrote: [\[CITE\]](#) Definitely go for ETH, LTC, XRP these coins are definitely most stable, but you wont earn on them x10, x100 within one year, if you want x10 go on SONM.

xanzi - December 21, 2017, 6:16 pm

im stupid and i bought 30 ETH at almost ATH -.- go guys make fun of me

Cimex - December 21, 2017, 6:28 pm

I agree as well- it has serious potential. Eth or ltc are solid investments as well

superman7 - December 21, 2017, 7:37 pm

ETH, IOTA, Monero, LTC seems to have huge potential
