Thread: [Free domain and hosting for a year](#)

M?xim - December 22, 2017, 9:34 am

It's very simple. No payment method needs to be used. Completely free.

I make no promises that it works. But it did for me. I grabbed a .net domain and hosting for free, 5 min ago.

It seems to be working for some. And other's not.

Quote:Go to [this](#) page. Select the cheapest package. Then select your domain (not before). If it doesn't work, try this code "9KEAU8976T".

If not that, then:

Try going here: <https://www.easyname.com/en>
And click on the top banner "Take Part Now!"

Seems to be working for some. Worked for me. And a few have confirmed it to me that it worked for them.

*Some have reported that their US verification does not work.
