I've been talking with Nebo for a few days on Steam and I've tracked his progress. Great method.

GloryToBe - December 22, 2017, 9:36 am

So you buy CSGO keys on the steam market and sell them on opskins? You can instant sell to bitskins too right?

No.

I don't buy anything, I just get CS:GO keys with my method and sell them for a 100% profit.

Congratulations Sir ?

Indeed.

I've developed the method, first day took me hours of manual work.

Second day, I've made some updates to the method, coded two scripts that help me a lot with the method.

Now third day and forth will just be an increase in volume, who knows I might hit \$500 in a day. It's a bit crazy.

Also, thank you :)

Greyhat at the worst. Certainly not blackhat.

It's greyhat depending on the way you look at it.

Biggy - December 22, 2017, 1:41 pm

Why do I feel like I'm about to see this method in the marketplace?

Nebo - December 22, 2017, 1:49 pm

There won't be an eBook on this EVER. I can guarantee you that, 100%.

It's making me a ton of money, why'd I want to sell it for pocket change.

I don't have any interest in selling this and even if I was offered \$2k for it, I still wouldn't sell.

So, yeah.

Managed to earn 1.5k so far.

Things have slowed down quite a bit but I expect atleast to hit 2k before I'm done with the method.

Cashed out 800+\$ so far, \$600 remaining in OPSkins account.
