Usual type of stuff in the HF CE section. Long story short, I had \$30 worth of ETH and was looking to get \$33 worth of PP.

Got in touch with user Zany, he said alright, so I just sent him the ETH. It's been over than 16 hours and he still hasn't sent me the amount.

I mean, it's just \$30, lmao.

Since that moment, he's logged in plenty of times and ignored my messages.
