Guy's, Don't step into his fly trap !

He is the idiot with futur-heberg.ca / cathosting etc. He offered free hosting with unlimited space and bandwidth a thousand times before and after one/ two weeks , he's gone.

More over, He will offer you free domain registration or free domain transfer on his server with one year extension but when you transfer your domain, or its time to renew, you will be asked for huge money (around 100USD) to get the domain back.

Sometimes He will just suspend your site without any cause and will ask for huge amount to re-activate.

He is one of the famous fraud on net. Search the owner Max Bouchard on net and you will find a lot about him. one is <http://scammermaxime1.wixsite.com/scam/detail>
