All you have to do is answer this one question correctly in PM to me.

Quote: Which creature walks on 4 legs in the morning, 2 legs in the afternoon, and 3 legs in the evening?

- Explanation is required

God - December 24, 2017, 7:45 pm

oh poop gotta PM you

removed my answer

Amaranthe - December 24, 2017, 7:49 pm

Sent you my answer via PM.

2 legs/afternoon/middle of life = grown person walking

3 leg/evening/end of life = old person with a walking stick/cane

There is a reason I said to fucking PM me the answer.

Way to ruin it.

/Thread close.

You are failing to see someone ruined it for everyone already by openly posting the answer.

Thread needs to be closed, I was able to give out 4 licenses before it was ruined for everyone :(

Damn, I was late for this.

Either way, thanks for the amazing giveaway.
