Thread: [ONE MORE TIME](#)

Armada - December 25, 2017, 6:00 pm

Well, me being me, I am a total dick, and even in previous challenges I leave clues. Being someone decided to ruin it for everyone in my [last post](#) by giving the answer out.

In the spirit of the season I make one final offer.

And this one is a BIG ONE

So Listen the fuck up ladies.

<https://hackforums.net/showthread.php?tid=4931360>

[Video: <https://youtu.be/sc2RFOEcQhM>]

There is a code actually imbedded within this video.

No one found it the first round because I am a troll and as misleading, but I did not decieve there IS a code in the video.

First person to PM ME THE CODE, I will give 50x Orcus licenses to them and their friends.

You have till Dec 31st (My birthday) to figure this shit out.

Good luck to all whom attempt.

All I can say, is it IS possible.

Silent Uprising - December 26, 2017, 12:15 am

Well...Watched the video a few times. Read the description. Copied the embed code and looking at it for an hour. Can't seem to find anything useful. This is gonna be hard as hell.

BTW, the dropbox link seems to be down.

Armada - December 26, 2017, 2:06 am

Drop box is dead for a reason it no longer applies.

Silent Uprising - December 26, 2017, 4:34 pm

(Dec 26, 2017 03:06 AM)Armada Wrote: [\[CITE\]](#) Drop box is dead for a reason it no longer applies. Yeah my bad. Clicked the other thread and replied based on that one.

Either way...To whoever else is solving trying to solve this puzzle, this is what I tried so far...

- The word "IS" is a hint. I'm sure of it! IS looks like 15 so I went 15 minutes into the video and it's some skunks dancing around. There is a link in the bottom right corner which is not contained in the original skunks dancing around. The link is dead though so the website doesn't exist. Dead end though...

- I copied the debug info and based on the hints we are given that it is IN the video. So maybe it means literally in the video's debug info? cpn? docid? cmt? plid? ei? lct? total frames? Is it literally the video id? Ahhh, so many things.

- Nothing is full screen (always black sidebars) except for 2:15-2:45 when the llama is dancing on the black background...Maybe the amount of width the sidebar is a hint? But this changed depending on the device you are on...I dunno, just trying to spit ball ideas maybe someone else figures something out. No idea what I am looking for lol.

You are Sooooo close... lol

Full screen helps though ?

Adding onto this I went to 15 minutes because I also think it looks like IS

Went into full screen and copied debug info which gave me this

<https://pastebin.com/8fVj3RL8>

dont roast my 1050 sorry

I then ctrl+f'ed IS

no luck

Ctrl+f 15

Theres 12 things from the search 15

Im confused

I will say that wont help.. lol

You are over thinking this.

Consider this.

when I made this video, I was literally drunk and waiting for my girl and kid to wake up, so I did NOT put a ton of thinking in to it, neither should you.

Rum gets you drunk

The girl spits out these numbers

1212111211212112

in order

God - December 26, 2017, 6:46 pm

Armada, what would we possibly do with 50x License Codes? :P

I don't have that many friends

Armada - December 26, 2017, 6:49 pm

(Dec 26, 2017 07:46 PM)smye Wrote: [\[CITE\]](#) Armada, what would we possibly do with 50x License Codes? :P

I don't have that many friends

Seems like a "you" problem to me lol

Silent Uprising - December 26, 2017, 6:55 pm

Rum gets you drunk

The girl spits out these numbers

1212111211212112

in order

I got 12121111211212112. (An extra 1). Maybe the 2's are a distraction. Change the 2's into 0's and change the binary value 10101111011010110 into a decimal and you get 89814. When the lbw value is 89814 the you are at 11:51 in the video and it's showing "Horse Pop". BOOM. DONE. Solved!

Haha, jk :(

I will figure this out!

(Dec 26, 2017 07:46 PM)smye Wrote: [\[CITE\]](#) Armada, what would we possibly do with 50x License Codes? :P

I don't have that many friends

The prize is hella big since he knows we can't solve it.

(Dec 26, 2017 05:42 PM)Armada Wrote: [\[CITE\]](#) You are Sooooo close... lol

Full screen helps though ?

Why is the S in Sooooo capital? Is that a hint in itself? Like the S in IS?

Armada - December 26, 2017, 7:01 pm

(Dec 26, 2017 07:55 PM)Silent Uprising Wrote: [\[CITE\]](#) The prize is hella big since he knows we can't solve it.

But you KNOW I WILL honor this prize if someone figures it out. ?

Might have a bit of explanation to give my partner, but I am betting your not gonna get it right....

Sheeple - December 26, 2017, 10:22 pm

This is the only thing I could come up with since you're so obsessed with IS and capital S's rofl

Silent Uprising - December 29, 2017, 11:32 pm

Too bad I couldn't figure it out. 1 day left not worth trying lol. It's to hard. Either way thanks for the challenge you should post the answer at the end I'm curious to know wtf it was!!!

Armada - December 30, 2017, 3:01 am

You are right.

One last clue.

- The Colour blind would not be capable of completing this challenge.

The sequence has everything to do with discoloration and an offset to the original color scheme to conceal the code itself. ?

sm?ked - December 30, 2017, 1:55 pm

I had this idea and I know why the symbol is there

Armada - December 31, 2017, 10:38 pm

So I sadly have to close the thread now. (or request closure)

On this note.

I feel I MUST make a note to members for their attempts.

- Reversing the video stream, invertiting the signal and the rest, well. I LOVE the effort but it had nothing to do with that, anytihing.

-- Ya'lll gonna hate them, because they have given me ideas now for my next game . LOL

But to the point of challenge.

You guys DID come so very close., but you HAVE to note my hints.

(Dec 26, 2017 07:36 PM)Armada Wrote: [\[CITE\]](#) I will say that wont help.. lol

It was all about the colours and the back drop.

So although no one found the true answer here and now by dead line, I will do this ONE FINAL offering.

If anyone can be assed to find the code/sequence I am looking for, you for ONE free Orcus license.

?

I tried to keep it easy guys, someone ruined it. But I am a man of my words, so none the less, if you can provide the code I will give you SOMETHING. ?

Close but no cigar. These challenges ganna make me go mad. Time to try figuring out what that code/sequence is.

BTW, happy birthday & happy new year bro. Thanks for the challenges, you should post more of these type of stuff haha.
