Thread: [Positive App Reviews with 5-Star Ratings and Real Installs on App Store](#)

chris chan - December 25, 2017, 10:59 pm

Positive reviews can help you increase your app ranking in search results and top charts, also they can help you get more keywords. All these can lead you an install boost and sales boost. However, it is not easy to get positive reviews on App Store. Therefore, you should consider working with a reliable app review provider.

BestReviewApp is an app review and rating service provider, founded in 2013, this company has been followed by more than 5000 app developers. This company offers positive and quality app reviews with 5-star ratings and real installs, which helped boost 10s of 1000s apps to top charts.

? Advantages of [BestReviewApp](#): ?

Real Users. This company has a huge real user base around the world, and all reviews are written and submitted by real users.

5-star ratings. You will get the same amount of 5-star ratings if you buy app reviews from this provider.

Real Installs. Once your order is active, real users will install your app and leave a positive review.

Customized Reviews. You can also write positive reviews yourself.
