Fury is unlike anything you have ever seen before, complete 2011 content in a 317 client loading all revisions from 317 to Pre-Eoc(742)

This allows us to create content that caters to the players

The goal

When we started Fury we saw something a lot of 317 and RSPS missed in general, we saw a lot of focus go into OSRS and people forgot about Pre-eoc? To some that was the best time period, let it be the polypore dungeon, or the dungoneering, or even slaying queen black dragon. When people play Fury we want them to say WOW i missed doing that so much or WOW i never got to experience that in real Runescape because of a content/skill lock. We welcome you to play Fury and remember the good times

The Team

The team consists of three people maybe more in the future, but everyone has their role into making Fury the best it could be, all three of us are partners and our goal is similar. Make Fury a top 10 RSPS! We as owners know what the community wants and we will give it to them :)

Alex

Greg

Supreme

Bottom floor of the Polypore dungeon map, its where you slay the big gandodermic beasts! Wearing equips from all eras at once.

Lets start off with the first image, our banking interface with bank tabs

Now some juicy stuff that I love, get that amazing hand cannon with hand cannon shots at chaos dwarfs

A cool picture from the Jadinko lair, you know! WHERE YOU GET THE VINE to make a VINE WHIP!!!

Full glacors in their little glacor cave :)

Nex being Nex and guess what its fully working!

QBD looks so scary!!! Will you be ready to take on the challenge you puny little human?

Now if were talking skills, lets talk dungoneering first right? Almost every floor is functional and similar to RS, only a few floors have been skipped, but all in all almost full dungoneering in a 317? Also every dungeon is randomly generated to be kept as a fun activity!

How about some good old summoning in everyone's favorite summoning cave?

How about the legendary runecrafting guild, which had teleport tabs to every altar and you know what, we have that ;)

Catching imps in a perfectly coded puro puro is fun, and guess what you will get to experience that

Wait? What about grenwalls and grenwall spikes to make our potions!!!! Wait we can catch those too!!!! YESSSSS

I know firemaking isn't the funnest, but the bright colors you can make and don't forget bonfires?

Fun agility time :)

I might check it out later this week. I used to bug abuse on 718s back in the day so I can get back at you with any possible bugs.

Do you own this server?

Do you own this server?Yes I own it, but its a 317 client, nothing related to the 718 client here and the bugs that come with the matrix source which people leech.

Been playing on this for quite a while, have to say it's by far one of the best servers i've played.

I'm here to stay.

W R T - December 28, 2017, 3:02 pm

IGN is Windows.

Gonna be playing for a little while :P

Been looking for a good RSPS with good staff.
Did you like it !

puresplz - January 7, 2018, 9:43 am

bump it up need to see some hackforums players online

puresplz - January 14, 2018, 11:48 am

Do people on hackforums play RSPS? Doesn't seem so!

Construction is out

<http://furyps.com/forums/index.php?/topic/244-construction-13012018/>

puresplz - January 18, 2018, 2:39 am

We have just released Evil Tree! The best one on any RSPS , full animations, nurturing the sapling for farming exp, chopping the roots, burning the tree, cutting it and more!

Confound - January 18, 2018, 7:25 pm

How many players are online these days?

Armady1 - January 19, 2018, 4:07 am

@puresplz curious about the playerbase too

Usually, my motivation to play PS is the playerbase size

puresplz - January 20, 2018, 10:15 am

We have around 20-30 players on our peak times. If you want to play a PS based on player count then help grow it by being there at the start.

Play the server based on its quality content lads and pre-eoc memories

puresplz - January 24, 2018, 3:24 pm

Do people play RSPS here?

Jadinkos are coming tomorrow! With the full system including the fruits, favor system, vine whips, bolas, spears, vine whip, and all the other goodies you would expect. Join the most content packed pre-eoc server there is.

Huge marketing starts soon, we are nearing a point where most of what we needed to be done is being finished and its ready for the masses

I don't play unless its spawn / pre-eoc. Every server has the same shit and lacks content thats unique.

Our updates <http://furryps.com/forums/index.php?/forum/8-development-and-updates/>

We are strictly pre-eoc. If you missed Pre-eoc we offer the most content for the 2011 era, and we update daily!

puresplz - January 27, 2018, 1:26 pm

Come play right now

Just released full giant mole with claw and skin gathering, plus our bug fixes

Muse. - October 23, 2018, 9:18 am

I'm coming back to the server now, can't wait to check everything out.

It's been a while xD

Bezerk - October 23, 2018, 12:10 pm

I would join it brother, but I hate starting back from scratch on things! However, it looks like it could be a lot of fun! Great look to it, GLHF ; ?

Flummox - October 28, 2018, 10:46 pm

I've been looking for a server that's pre-eoc for a very long time. How active is your playerbase? what's the average playercount every day? And does anybody pk? Nothing I miss more than pre-eoc pking with the boys back then.. Arma storm rushers, polypore ragging, it was a shitshow but I have fond memories.
