Thread: [Premium Offshore DMCA Ignored Cpanel Hosting \[FREE\]](#)

Elites - December 27, 2017, 4:45 pm

Howdy L33Ters & Ub3rs!, well lets get straight to it i'm obviously new to the Hack Forums community so i decided that the best way to make my mark/intro is to give the following hosting plan

50 GB Storage
100 GB Bandwidth
CPANEL
1 Domain
DMCA IGNORED

Away to the next 50 L33Ters / Ub3rs!, now here's the catch users must have a active domain linked to the hosting plan the hosting plan will expire a month from the time you get it users who do not link a active domain will be terminated and spot will be given to another L33Ter/Ub3r (Whats the point of given it to someone who isn't going to take advantage and use it)

SERVER IS IN Romania, Host whatever you wish except

CHILD PORN,PHISHING PAGES,& WEAPON SALES
