Makaveli The Don - December 29, 2017, 1:40 am

Welcome to Influence's 6 month anniversary contest. This contest will run over the course of a couple weeks and can be closed at any time we feel like we've got our winners.

The prizes are:

x15

You can see all the benefits of the upgrade here: <https://hackforums.net/upgrade.php>

The rules are simple to join this contest:

You should not have 3p1c obviously.

No open/unresolved scam reports or community alerts.

Your account should be at least 1 months old.

Your account should not be in negative reputation.

You should have at least 150 posts made and 10 threads created.

Only 1 entry per person and no post reserving for late entries.

All these rules are here to ensure that you are not just a lurker or someone who will not use his upgrade. We will study all of your entries and accounts to determine the most deserving accounts to be upgraded. Last but not least, to enter this contest you must answer the two following questions:

Code [b][color=#ffffff]Why do you need this upgrade?[/color][/b]

[b][color=#ffffff]How did you benefit from Hack Forums?[/color][/b]

That's it guys. Good luck and remember to submit your entries as soon as you can! ?

Ghost.13 - December 29, 2017, 1:45 am

Pablo Escobar - December 29, 2017, 2:51 am

Entered in a give away op said I won but I never got my epic :(:(

Entering to see how this giveaway goes :)

bronzegods - December 29, 2017, 3:01 am

Why do you need this upgrade? Honestly, my PM space really takes a toll on my whole user experience. I am flooded with messages and it's frustrating to keep going back to the same feature time and again. It would be a huge relief if this problem could be avoided. Also, I know there's lot of other responsibilities that comes with upgrade. I can exercise those rights with the best of my knowledge while contributing to the community like I have been doing.

How did you benefit from Hack Forums? Knowledge sharing at the core of why I spend my time on Hackfourms. It is ultimately about learning and sharing resources. As a community we can advance ourselves in so many fields than just working alone. This is the power of community driven forums. They boost your skills in innumerable ways than you can perceive. At best, I can say I'm glad to be a part of this community and I'd would like to thank you for this generous give away as well.

May the best man win.

This is nothing like that. If you make a proper entry and meet the requirements, you have a good chance of winning.

How did you benefit from Hack Forums? I did learned many things from many HQ members of this forum and made some friends as well and I daily spent at least 3-4 hours everyday on here.

Happy anniversary.

?BowmanBot? - December 29, 2017, 9:48 pm

Still time to enter. Do it while you can!

Shaggy - December 30, 2017, 12:38 am

Why do you need this upgrade? I need this upgrade because of the inbox storage is such a hassle almost every time you will need to delete messages from user and once you need them or remembered them to do something from you . You can't trace them and what more you have forgotten their username . Second is the userbar well I think its more better to have one rather none . How did you benefit from Hack Forums? Basically I learned mostly on hackforums and benefited me in terms of Hacking Tutorials I had made a decent hacking page about it and many people like on what I post that certainly helps them in certain situations and what to do also some tips and tricks regarding the World Wide Web. Also I read a lot of Money Making Ebooks that had awoken my sleeping brain to success somehow working at home and know what to do to make money out of marketing strategies. But I still have a lot to learn.

klapriez - December 30, 2017, 1:44 am

Why do you need this upgrade? This will motivate me to stay more on HF and really want to build a presence here . How did you benefit from Hack Forums? Offered few guides on how to get free Office and Fiverr Gigs!

Mr. Dany - December 30, 2017, 5:53 am

Why do you need this upgrade? I am new here and I want to be trusted because I want to buy Ethereum at a very small price but none trusts me yet. How did you benefit from Hack Forums? I met some nice people here that gave me trust that I should hang around, and this upgrade will give me confidence to hang along and I will give back with first occasion!

Hopsin - December 30, 2017, 7:51 am

Good luck to all applicants. Thread rated 5 stars, have a nice day. ?

JakeDarkblade - December 30, 2017, 9:03 am

Why do you need this upgrade? Mostly because I feel as though I've been a regular user for too long and that the user bar looks nice. Another reason is the trust scan which I will surely take advantage of.

How did you benefit from Hack Forums? HF has benefited me by giving me direction in the things that I want to learn. I'll be the first to admit to my previous LQ posts when I first joined this forum as I was around 14/15 years old. 5 years later I feel as though I have gotten a decent amount of knowledge from this site which I have been able to use to make money IRL.

SIM-2848601 - December 30, 2017, 11:36 am

Why do you need this upgrade? First thing is for my PM space (Private Message box increased to 10,000 woohooo!!), I always get 100% inbox for inquiries also when trying to help HF members ie. (phone verification, SEO, reviews, etc). I also want to take advantage of the Max Post Length setting is 24,000 characters and the Gauth 2-Factor Authentication account security I really need those features for my future articles or sales thread.

How did you benefit from Hack Forums? HF give me ideas and motivation how to earn money independently and learn new things especially on Crypto's, Basic Hacking, Websites and SEO.

Looking forward to help more fellow hf users. Goodluck everyone! Happy Holidays. Cheeers!

Vyxn - December 30, 2017, 6:00 pm

Why do you need this upgrade?

Even though I already got this L33T upgrade, I still love to have an extra benefits from 3P1C. They have an awesome features like Country lock and Self ban which is useful for me as I'm going to be a permanent member here and help my account to be secure. Suck that country lock was temporarily disable but Omni was already fixing it so yeah.

How did you benefit from Hack Forums?

Hack Forums is an active community with a tons of member. I'd say I learn more here about technologies than in my class. I would like also to establish some business here after I earn some investment. I still don't have an online friends tho but maybe this coming new year I'll get some friends. Generally, I really love this community and how Omni manages this forum, it satisfy my feeling.

Fortune - December 30, 2017, 7:18 pm

I'm in! the other time here! I'm going to be lucky this times too since I won a 10\$ PayPal giveaways the other time here! Anyway thanks for this op! ?

JillOk - December 30, 2017, 7:24 pm

Why do you need this upgrade? Because I'm giving out a lot of free stuff and my PM Box always fills up. So It would be nice to have a bigger PM Box.

How did you benefit from Hack Forums? I have gotten many new friends, I have gotten many new methods to earn money and I also like to meet new people.

SIM-2501407 - December 30, 2017, 7:35 pm

Why do you need this upgrade? Honestly, I do not need anything that it is specifically unique on HackForums, however, I think it'll make my account look cooler. ?

How did you benefit from Hack Forums? From the Currency Exchange section I have made thousands of dollars and have successfully delivered safe funds to members of the community in return. Aside from financial gain, I have found hours of good, high quality entertainment, threads, and fellow peers over the years.

Exci - December 30, 2017, 7:44 pm

Why do you need this upgrade?

I'm just looking for a good outlet to trade OSRS gold/accounts and other Xbox/misc stuff. I want to get into CPA and PPD but I don't have any knowledge of it yet, but I'm trying to learn!

How did you benefit from Hack Forums?

So far, I haven't benefitted much, but I'm still learning and trying to figure out how everything works. I don't post a lot,

but I look all around the forums from the lounge to the marketplace, and I'm just trying to learn as much as I can and maybe find something I like such as e-whoring or instagram OG's. I've spent more money than I've made so far though which is pretty discouraging.

Royal Mint - December 30, 2017, 7:44 pm

Why do you need this upgrade?

I need the extra PM space, I try to keep all conversations I have with users on-site.

How did you benefit from Hack Forums?

I benefit from Hack Forums because the currency exchange section has helped me buy and sell my

required currencies. Additionally the forum has an excess of information available that I haven't seen anywhere else.

Makaveli The Don - January 1, 2018, 9:48 am

Be sure to read it.

Thanks.

Allison Argent - January 3, 2018, 11:42 pm

Why do you need this upgrade? Country locker, it's been a huge desired feature of mine so that I know I'm that little bit more secure when it comes to logging into HF on a day-to-day basis.

How did you benefit from Hack Forums?

Originally I joined HF from a specific user (random person), some of you might know him some of you might have had issues with him but before he became the rep abusing, screamer link sending blackhat piece of shite... he was a decent guy. From the moment I joined I focused within the GFX (Graphics section), this led me to talk to a load of other members before the section took a toll and certain areas of that became inactive / died. I made a select few friends within there and the tinychat for HF which was ran by Ping at the time, along with Devil and a few others.

Later on I released my first ever GFX pack, it was small but it was a contribution, I gave my own input on suggestions for the forums itself and was lucky enough to be awarded with the thinker award (which for some odd reason gave me quite abit of hate within my PM's).

But this is enough of me and how i benefited from HF.

-Allison Argent

?????? - January 6, 2018, 3:10 am

Why do you need this upgrade? I'd love the increased PM size, and access to Trust Scan.

How did you benefit from Hack Forums? I've met some cool people on here, and learnt many new things from various sections of the forum. Many times have given me a good laugh. I used to be part of the official forum group Baka until it was sold and met some nice folks there too. We often chatted about Japan and anime and what was happening in our general life. In the music section, I've discovered some really good music from threads in there, although rarely does a post cater to my tastes. When I first joined I just had fun discussing Minecraft with other users. Sometimes I feel like I miss those days.

Eregan - January 7, 2018, 11:11 am

Why do you need this upgrade? I need this upgrade because I don't have a rank on HF yet. I try my best to be HQ and help the community where I can. I am offering a programming service in exchange for small payments, I think by being 3p1c I have a better chance on getting better known as a good service provider here on HF so I can start earning more money by helping people out with their technical problems.

How did you benefit from Hack Forums? I did benefit from HF by all the knowledge which is spread out over different threads, knowledge is power.

Silver Haz3 - January 7, 2018, 1:15 pm

Why do you need this upgrade? I need the features sir.

How did you benefit from Hack Forums? Helped people and will release tools soon!

Skidy - January 7, 2018, 5:16 pm

Why do you need this upgrade? I have been apart of HackForums for a long time now, I would love to have the Ep1c upgrade for all the features and title.

How did you benefit from Hack Forums? I have contributed to HackForums by releasing free tools, creating crypto currency programs (<https://consensus.fun>, <http://cryptoing.net> and <https://cryptocal.info>) for the benefit of others. I have also benefited from HackForums by all of the tutorials released on varies topics (CryptoCurrency being the big one, Programming, Business etc..). HF has really allowed me to learn things I would not normally. I could go on but wont.

Hope I am considered. Thank you.

sql360 - January 7, 2018, 8:20 pm

JELLY?IsH - January 8, 2018, 5:27 am

Why do you need this upgrade?

It would be great to get an upgrade not just because it looks better but because you get a lot of features and I really need more storage for messages.

How did you benefit from Hack Forums?

I'd lie if I say I learned nothing here. HF is a great source of tutorials that can make you understand some things about variety of topics. I met new people, learned about different cultures. Also, it's great place to relax after a long day.

Rhodos - January 9, 2018, 5:27 am

How did you benefit from Hack Forums? Crypto and malware knowledge in general terms but it doesn't stop there.

Ren And Stimpy - January 9, 2018, 7:10 am

Why do you need this upgrade? Tired of being looked at like a "Noob/Script Kiddie" cause of not being upgraded

How did you benefit from Hack Forums? I have learned a lot about coding and def crypto currency! I have also became freidns with several people from the community so far!

severos - January 10, 2018, 7:31 am

Count me in guys, nice contest :D

Why do you need this upgrade?

Well, I already have l33t so PM space isn't a problem. But, I'm on my way to start trading crypto, also I'm thinking of picking up programming service. So, accessing Trust Scan will be a nice feature when dealing with other members.

How did you benefit from Hack Forums?

That's a hard question, so I'll try to put it in pointsLounge: the daily posts there makes my day, you'll always find something to cheer you up

Members Contests: well, who says no to some extra money? the small amounts I've won couple years ago are now worth 4 digit numbers due to BTC price going way up, so I owe my small fortune to this section.

Anime Adventure: Altho I'm not active on it due to being busy irl, those guys are very nice, instead of having to look into billions of reviews to find what I want to watch, just make a thread telling what you liked and watched, they'll just fill your schedule for the next year in a moment.

Window 10: Who haven't got a problem before? whatever it was, you'll find answers here 99% of time, the other 1% they'll guide you on where and what to look for.

Coding sections, need I say more? I want to put a special thanks 0xDEAD10CC for keeping calm and not shooting everyone who doesn't get it in the .net section XD

Not to forget marketplace sections that helped with my earnings.

And a big thanks to the crypto section that gave me inspiration as well as motivation to learn about cryptos.

That's kinda all I have in mind, probably I've forgotten more, but memory doesn't help me???

nicksaban1 - January 12, 2018, 3:49 pm

Thank you Don for this great giveaway. Good luck to all who applied.

AlphaTurtle - January 13, 2018, 1:07 pm

Why do you need this upgrade? I need the upgrade because of the benefits of the upgrade. Such as the trust scan and the pm space as it is getting closer to being full.

How did you benefit from Hack Forums? I've made friends here. I've made my first online money with help from here. I've had lots of fun because of HF. My knowledge about computers has increased very much here.

zhunne - January 13, 2018, 2:02 pm

Why do you need this upgrade?

Well first thing what comes in my mind is the inbox size. And giving reputation (not sure if 3p1c has that privileg tho)

How did you benefit from Hack Forums?

I do benefit on HF on daily basis. If i have a question, i can ask or look up. I can give other people some pointers - if i know enough. Lots of interesting topics here (Educational, fun, heart to heart, vices). People from different backgrounds. Money money money and wisdom.

Ahh and almost forgot.. Lots of inspiration here.

Thats nice nontest what u guys having here !

Good luck to everyone
