Thread: [Simple JAVA netbeans desktop app](#)

SIMAAS - December 29, 2017, 7:04 am

Looking for someone who could help me with my JAVA Netbeans app.

For someone who knows this stuff it will take only a few minutes.

Message me here, or on Skype.

Why don't you just post the problem here ? It is easier, and you would save us the bother to add you on skype.

I'm willing to pay to whoever helps me, since I didn't really attend any classes, and would like some help connecting all of the stuff together.

You'll get a much more faster response if you post your problem here buds.

We're all here to help you. ?

Why would you not just post the problem or put it in a pastebin?
