Thread: [Paying for Userbar Tweaks \\$50](#)

Yous - December 29, 2017, 11:13 am
closed!

work has been completed =)

(Dec 29, 2017 12:13 PM)Yous Wrote: [\[CITE\]](#) I'm looking to make some userbar changes for my forum:

I'd like this wolf head to be placed inside of the userbar on both the right and left side for all of the userbars. I'd like it to blend in with the userbar with a bit of opacity

I'd like this to be switched to red, the text should just say admin and add the wolf head into the background on each side

Just add the wolf head with blue eyes

I'd like this one to be changed to color: 96adbb
[img]<http://wolfpackforum.org/images/wolf.png>[/img]

This one switch the text from super VIP to just VIP. The wolf head on this one should have black fur and purple eyes. Also add in a purple line near the middle

This one should have 2 stripes

Also the wolf head should be black with the same eye color as the userbar. Also blended into the background would be a pile of silver coins and emeralds.

If you can do this i'll pay you \$50 ?
I have pm'd you regarding this. Cheers! ?
