SuicidelsAnOption - December 29, 2017, 11:23 pm

Hello,

Wellcome to my thread. Here I am selling my new ebook.

Here you will learn how to make especially make eWhoreing packs but you can make a lot more.

Example: Cracking, Privat Proxies, Combos, torrents, private nudes, unknown files etc.

With this method, you can make some fucked up shit.

Now for the prices. I am selling this ebook for \$10.00 because it is so good and private.

I am giving out 3 vouchers.

T.O.S Reselling is forbidden.

Chargeback will result in a scam report.

You can't leak/share this e-book.

I'm only and one seller of this e-book.

I'm selling it for educational purposes only.'

If you have any question add me on discord at

I think \$5-10 is an okay price for this as it's nothing complicated and quite self explanatory, but I can confirm that it's working.

This Method is super simple and within a minute you can already find a pack! and it will definitely work.

Recommended and Worth the Price!
