User in review: Meow

HFUID: [1500389](#)

Purchased this ebook, to see what the user "Meow" had to offer, as he seems to always bash people's threads, and this is my review:

Rating: 0/10 Giving this rating due to all information provided on this ebook is public information, information that you see on EVERY ebook.

Uniqueness: 0/10 Everything is public.

Pages?

50 pages of exactly what? It's all public information.

LOL your "PRIVATE" methods

Global methods? LOL You mean more "PUBLIC METHODS" than what you are already selling.

IP Analysis? Look up an ip address with ip-tracker.org

Email & Phone lookup? Whitepages/spokeo and other people directories are FREE OF USE.

Reverse image search? LOL telling you to use tinyeye.com and check pics.

Database lookup? how to use grep/sift to scan through your public database collection.

google search operators? insite:hackforums intext:"meow" wow dude, very "private/unique"

Even your detracing package is a fucking joke and utter trash public information.

How to detrace:

All you did was telling people to use a vpn/proxy, post fake doxes on pastebin, use a hard to decrypt password, and post links of their doxes on google search console, URL removal tools.

<https://www.google.com/webmasters/tools/removals>

All of this information is public and people should not be paying for this, also this is in no way a "Private" method let alone unique. Like I said before, user is trying to make a quick buck, with nothing but public information.

This is it for my review, If you need anything reviewed PM me and I will write a detailed review, tired of seeing the marketplace filled with trash and extremely known public methods being sold.

You have me on your ignore list, like the "professional" seller that you are.

Quit being unprofessional, and give me my refund, even If I receive it, I won't close this. You're scamming people.

Kindly provide the order ID to Meow and your review on his product will be visible on the sales thread once again. For now, it's assumed that your accusations are baseless as you've not purchased his product.
