Thread: [A HF member only town.](#)

SIM-3257834 - December 30, 2017, 10:03 pm

What would a town that only has HF members be like? Plenty of abandon towns for sale in the US or soon to be on sale as long as you present the cash. Seems like the best option vs buying a group. Now you can sale fraternity or sorority houses to Fox members. I'd be the local sheriff and judge, patrolling in my 4 banger sedan. Then we'll put [Qtum](#) in charge of the local ISP. [D?niel](#) would be in charge of the public education sector while running a rebellion peaceful group. [Armada](#) would run a mass surveillance security company that installs your alarms and security cameras. As for child care and all your child needs [Japanese](#) yo guy. Would this be a town any HF members be interested of? What sorta things would stop you from stopping by or living in?

Guys I think we should do this seriously.

And investors can have be on some sort of board for the town

Dead townships in America.

Hell can do it in Canada too, but I know people prejudice towards my country, we are apparently too nice or some bull shit.

I am considering the same for myself and family here for a disaster plan. I atleast have somewhere secure to go to.

But no fucking joke you can buy the damn land take whatever is on it as is and do whatever in many many places in America. Shit is dirt fucking cheap.\

Hell if I am guaranteed somewhere to sleep when I visit Id throw \$1000 down myself, just to see this happen.

That would be a fucking first.

a Hacker based and organized literal REAL township. lol

Omni has no say to this one if it is community driven. He likely dont give one fuck either.

Would be cool if he chipped in though. lol

Secondly, for a name? C'monn man that is easy "Hack Forums" - "Hack Town"

I found a whole damn abandoned mining camp, with a saloon and all to boot for \$12K USD. It IS in the middle of fucking nowhere, but what would you expect? ?

If you ladies wanna come up north I can grab 100 Square KMs of natural land for like roughly the same price, but we would have to build all our shit ourselves.

-Nice scenery though, better than dessert.

Bunch of idiots and the only intellectuals use their skill in the wrong ways like rig elections and invoke laws to kick Omniscient out of his position as a mayor only to push their right-wing agendas on to the dumb people and create an empire of corrupted souls and i have no fucking clue what im talking about

Good infrastructure is a great way to ensure the city stays afloat. Invite Tesla to Beta test new home tech and energy.

I'll be the towns Mobile Mechanic. Car's got a problem? I'll fix 'er up for 'ya!

Town needs a drag track and drift track tho.

And we don't need any fucking pricks becoming local law enforcement and giving tickets for going over the speed limit

Have you seen some of the cars HF members drive? I'd be surprised if they can even match highway speeds.

TheKid_ - January 3, 2018, 2:11 am

Lmao everyone would be in their houses gaming / doing shit on their computers or masturbating ofcourse.

I think we'd need 2 towns tho one for the skids (like me) and one for actual proper members

HOLY FUCK i just exposed myself

Rsynced - September 25, 2019, 6:26 pm

Man how do you think of these things. I don't know if I would want to live there ?

TheRecklessZebra - September 25, 2019, 6:35 pm

Honestly I don't know about living their either, you really think a whole town could sustain itself with just HF members?

Joel - September 25, 2019, 7:02 pm

Picture this.

Its a late night in the saloon. A few old shitty forgotten members drinking their sorrows away. Something feels off but no ones sure what. And there it is. In walks in The Losers. The rough rag-tag team that has been blazing their way through the town.

We hold our Raspberry Pi's up and demand your Bytes, out of pure FEAR everyone hands over the Bytes and we make it out like the swift-bandits that we are.

You've been hit by, you've been stuck by, the smooth Losers.
