Thread: [\\$300 in XLM, \\$300 IN XRP](#)

Nebo - January 3, 2018, 6:06 am

Just put \$300 in XLM and \$300 in XRP.

Using Binance, let's do this!!!

Thoughts? Criticism? Commendations?

My thoughts? ur a little late, but better late than never. I have 100 xrp coins and 100 xlm coins bought both when they were at 0.40 cents. Good investment.

More in XRP, at least short term.

I'm certainly listening to your advice. Would be cool if there was a good public cryptogroup or something, you seem quite knowledgeable about it, my old Harmony buddy.

Been in XLM since .09, wish I had put more into it. Looks like we're getting closer and closer to \$1.

Stellar is a great buy but its up 30% so I would wait.

Both XRP and XLM are at ATH's though.

It looks like XRP is going to have another big run up, but don't quote me ?

Yeah I forgot to sleep watching the charts.

Let's see if it breaks 17000 sats on the first try.

I got into XLM at 0,23\$, i don't know i want to withdraw or not!!!

I just bought XML and it is currently raising as fuck!

XRP is also very nice to invest in.

Lets say that you have chosen 2 very good coins.

Kanoplya - January 3, 2018, 6:31 am

Lmao, I had \$10 invested in XLM since 5 cents. 1554% growth, not bad.
