Hey Guys, so everyone wants more money. But, not everyone has the time to sit down and do pointless surveys that pay little to no money, well you're in luck! I'm going to share with you guys how I made bank in school, I can already tell that you will go far in life if you have read up to this point, making money is a grind and it takes discipline. Luckily for you, this method requires little work. The concept is simple, you sign up with a couple of sites (MAKE SURE YOU CONFIRM YOUR EMAIL. THEY DO NOT GIVE GOOD SURVEYS UNLESS YOU CONFIRM YOUR EMAIL!!!!) and in class, or at work, studying ect. You answer these surveys, it's easy! Just multi-task. I prefer to do the surveys in school, because I always had a bunch of time, and I was bored out of my mind! Here's a link to one of my favorite sites, like I said, you must confirm your email for this to work. Have fun making dough!

And probably most if not all of the threads you posted requiring a reply or PM to get the link.

How many threads are you going to post about this site? Spamming isn't allowed just so you know.

Also, do you have any proof of payment?

Your apparent blog:

On your apparent blog, you advertise two sites. One of which is Toluna and another (very badly designed) site called Inbox Dollars. The mb104.com link you provide on your blog post redirects to a site (inboxdollars.com) registered on a Disconnect list as a malvertising site and blocked by uBlock Origin.
