is dragonball the best anime ?

Octavia - January 4, 2018, 12:58 am

That was a quick edit. ?

It might be the best anime to a lot of people but not me.

'Suicide - January 4, 2018, 12:59 am

Pretty sure Spongebob is the best anime

Shoto - January 4, 2018, 4:53 am

Depends on what you like. But its not the "Best" anime in my eyes.

lzedSosa - January 4, 2018, 6:14 am

most well known, i'd say.

Shuxas - February 10, 2018, 5:09 pm

I cant say its the best, but it is definitely a good one.

kyogre - February 13, 2018, 7:39 pm

fuck no this shit is good but too casual like they take 100 episodes to finish one fight lol

Professor Pantsu - February 14, 2018, 12:59 am

No, I tired rewatching it and it didn't hold up at all. Sure, it really helped bring anime to the west but other than that it's just a mediocre battle shounen.

Amaan4194 - February 14, 2018, 9:35 pm

Not the Best Anime right now, But It was best anime when I was in mid-school.. Didnt know much about Anime..

Zoomer - February 15, 2018, 6:41 am

I personally find dragonball the best anime out there, i don't watch anything else. Prince Vegeta all the way, Although i hate how Akira Toriyama dislikes Vegeta the most.

level0.0 - February 15, 2018, 8:37 am

well their are many other animes like bleach, naruto , one piece which are really good as well

Skyrus - February 16, 2018, 12:12 pm

No, but personally like it

perper350 - February 20, 2018, 6:29 pm

maybe but he is the god father of action blasting anime , its one of my favorite

DonDave11 - March 7, 2018, 1:09 pm

Depends on your taste really

gabrielred143 - March 10, 2018, 10:05 am

nope i like more others animes

jc-b - March 18, 2018, 4:46 am

In my opinion no, but not bad either. I would say Dragonball is one good and watchable anime.

Kuri - March 18, 2018, 6:32 am

No, but do I enjoy it hell yeah.

Nord. - March 18, 2018, 8:43 am

Depends, for its genre I think it's the best anime

ven0m - March 18, 2018, 9:10 am

I enjoy the aforementioned anime a lot, but not enough to assign a superlative degree from a subjective point of view.

DestinyDesigns - March 20, 2018, 12:37 am

Its an amazing anime but i must say it doesnt even go in my top 5 list

Popstar - March 20, 2018, 12:46 am

Nah.

Naruto, one piece, and DBZ all have the same exact story.

Kid grows up with daddy issues, is very weak, wants to become the very best.

It's a classic plot depicting that you can be the hero of your own future no matter your shitty upbringing, but it's the same formula as multiple other shows. So how could it possibly be "the best" when it's just a clone.

borito80 - March 22, 2018, 1:41 am

For me of the best, without a doubt

malson - March 22, 2018, 3:50 pm

what about tom & jerry guyz ?

Anubis God - October 17, 2018, 4:55 pm

DBZ is just a classic albeit there are better anime nowadays...it's always fun to watch good ol' DBZ. Cowboy Bebop is one of the best anime ever. Fairy Tail is the best Shonen manga series ever. I like Dragonball Z but I don't see it as best ever.

lovelike - October 17, 2018, 11:23 pm

For me not really, I have to say Naruto series (including Shippuden and Boruto) in terms of plot AND length. I also consider to be Fullmetal Alchemist: Brotherhood as the best in terms of plot and compactness of the story since there are no anime fillers.

But Dragonball is really iconic. I only watched a few episodes as a child but it wasn't really my thing.

Pikachu - October 18, 2018, 1:10 am

It's not the "Best" the Best anime is all a matter of opinion depending on the person. But Dragonball sure is one hell of a good anime.

Smexy - October 18, 2018, 1:15 am

No beyblade is the best anibru evur.
look at google stetikstics.

Hauron - October 18, 2018, 4:58 pm

yes , dragon ball is the best anime ;)

redroyalty - October 19, 2018, 5:27 pm

No it's not the best anime, but it is pretty good.

The.PinkPanther - November 1, 2018, 11:01 pm

honestly i dont think so. i used to watch dbz but the story gets boring and boring and the new addition of dbz super is even more childish xD

SolarRay - November 2, 2018, 11:28 am

Dragon Ball Super:

To further keep things from going stale each new scene tries to give us something new, either in terms of a location or sex acts. Whether it's on a Ferris wheel, in the park or at his office, Yoichi is a man willing to go the distance wherever the chance may arise. Given the focus of the OVA you're almost always going to see a titty fuck, and that should come as largely no surprise. But there are a few other acts that crop up now and again that keep things interesting. A little bondage here, some toys there, and even a couple pissing scenes make their way onto the stage. Towards the end, however, they do mix things up with having Yoichi spy on a threesome where a woman's son and father in law are effectively double teaming her. Yes, it's as undesirable a situation as it sounds.

vagabond - November 2, 2018, 11:43 am

dragonball is not anime. once it is dubbed and aired on american television it is a cartoon

Houtarou - November 3, 2018, 5:04 pm

Very interesting definition of cartoon you have there.

AGC1buyer - November 3, 2018, 5:09 pm

Hell no!

Your lie in april, Death note, One piece these animes are the best in their category.

popir - November 3, 2018, 8:06 pm

dragonball is definitely some anime which should be in a hall of fame but naruto is also pretty dope

bananachocobo - November 3, 2018, 8:11 pm

Not to most people. It depends on the people.

grr562 - November 4, 2018, 4:58 pm

I didn't have cable growing up but whenever it aired on tv I remember going to my buddies house(who's parents were doctors) I was following it during the saga between goku and freeza? That was a baddass part of Dragon Ball for me, I enjoyed returning to it while older but can't seem to get back into it these days. Is it worth re-living?

DrWatson - January 3, 2019, 8:44 am

For me its the best anime ever

newlife411 - January 3, 2019, 2:29 pm

dragonball is the best anime because everyone screams and the world blows up

flexible47 - January 4, 2019, 6:20 am

is dragonball the best anime ? oh no best anime bayblade

Ram - January 8, 2019, 4:29 am

Not the best but definitely the one I first watched!

hairypig - January 9, 2019, 6:11 am

It's not even as good as Naruto bruv

These new age Animes are giving Dragon ball a run for their money tho, like My hero academia, one punch man, castlevania...

longranger - January 9, 2019, 10:35 am

nope, by far the best I saw. One of the most popular for sure, but not the best

JeanKirschstein - January 16, 2019, 6:04 pm

I don't think dragon ball & z is the best anime but it's a reference as an anime to start with I suggest it to anyone without any problem .

manphatty - January 18, 2019, 9:37 pm

I dont think dragon ball is the best anime maybe you should try watching other anime like for example Hero academia

Soulmate~?? - January 18, 2019, 10:08 pm

Nah not even close, I would even argue it's pretty overrated but if it's your favorite there's no shame in that

(Mar 20, 2018 12:46 AM)??????? Wrote: [\[CITE\]](#) Nah.

You can add Hunter x Hunter to that list too

Shadow Reign - January 19, 2019, 12:26 am

In my opinion Cowboy Bebop is the best anime. That's the only television show/movie that has made me cry. The emotions that show has given me are unmatched.

DBZ is good though

Redness - January 19, 2019, 12:58 am

Definitely. For me its a legend of my childhood

MRDONUT - January 19, 2019, 9:57 am

I can't say the best

One Piece is good like Dragon ball

Ripperon - January 20, 2019, 8:31 pm

Most well known, not really the best, but definitely up there. Dragon Ball and Naruto have really

attracted a wider audience. Anime is a lot more popular now than it was 10-15 years ago

Vegeta Blue - *January 20, 2019, 9:50 pm*

It's the only one I've watched (next to One Punch Man) so I can't really judge it off of other Animes. I recommend it to anyone who would be interested in watching, I'm looking for more similar Animes now though, I've already watched DBZ 3 times over (yes all seasons :c) and all the DB Super episodes that are English dubbed.
