Is there any way to bypass the steam trade ban when overwatched?

Ive got 2 knives on my CSGO Smurf account and only hacked in Wingman and was overwatch banned.

Any way I can bypass to get the knives out?

Thanks in advance.

nope rip your knives was it worth it?

1. No you can't bypass the trading restriction.
2. You can't get OW banned for hacking in wingman.

Maybe you got banned on another account and was using the same mobile number?

But no, you can't get those knives from your account if you're OW banned.

Wait are you for real? You can't get OW in Wingman so you can just keep on spinning in Wingman if you played your last Competitive game legit?

I hack in Wingman and not in normal comp as I only have Mutiny's rage hack. Which I never have injected when I play comp. Then all of a sudden, I didn't even know until i were messaged that I had an overwatch ban.

I use mutiny and none of my wingman accounts are banned so it's not the cheat.

PingersAndMash - January 6, 2018, 9:05 pm

You can't get overwatch banned from wingman alone. You must've gotten reported enough to go to overwatch just from playing wingman and the day you got enough reports you played a comp game. I've never gotten wingman in my overwatch cases and valve is never going to add overwatch to wingman simply because it's too short and there is no option to watch your demos for it.

i dont think you can get overwatch from wingman, only mm.
