Thread: [Free Signatures and Avatars!](#)

Menacing - January 6, 2018, 10:28 pm

Title is self explanatory, it is mainly for Ub3r and L33t members although if you are a normal member feel free to apply and if I deem you are HQ or have contributed enough I'll be more than happy to create an avatar and signature for you.

I recently cleaned my PC and lost a lot of my Graphic Portfolio so I want to rebuild from a fresh start. Just simply post with what you are after and I'll be more than happy to complete it for you! Placing this thread here instead of the Graphics Section as I feel that section is way too dead and this will allow my service to reach and effect many more users.

Are you still doing this OP? I'm looking for something similar to what I currently have, but more fitting with the Usergroup Superior. It's currently a bit too simple for me.

Thanks a lot in advance man.

A simple signature. With LoL(League of Legends) images/style.

With the word BERRYS

First of all, thanks for this.

Second, I'd like this backdrop with gold, capital letters of vanderbilt preferably roboto or arial or impact
