Thread: [Scammed by Disco. UUID: 3137264](#)

#Style - January 7, 2018, 12:18 pm

I saw his thread that @Disco. listed stating that he was exchanging BTC/ETH for PP.

Original thread: <https://hackforums.net/showthread.php?tid=5781090>

I, then, proceeded to PM him asking for \$100 ETH.

Message:

He responded with his PP and instructions for the payment which I did.

Message:

I sent the money and gave him my address.

Confirmation of payment:

Proof of PayPal payment:

Then, he responded that he was sending the ETH but never did so.

Message:

I waited for a couple of minutes and continued to check my wallet, but I never received the ETH. So I came back onto HF and went to his profile and discovered he had blocked me.

Put on Ignore List:

Later, he unblocked me and PM'd me that he was going to refund me, but he never did so. What a scum lmao

It's sad to see reputable members scamming others. Best of luck getting your money back.

My thread ^.

He then had the audacity to tell me he was going to give me a refund, but never returned my PMs.

And that is why he did not care where the funds were coming from.

If he sent as F&F, it will be like 50/50 for it to succeed the chargeback, but he most likely will.

I also think paypal forces you to wait a certain amount of days (7 I think) to chargeback instead of instantly now.

I was able to cb and got my money back thankfully. And that last part isn't true, I cb'd on the day of the payment.
