Unfortunately, due to the fluctuation, I cannot do so, because, at the end of the day, my strategy at the moment paying with crypto is a gamble as the price fluxation is very rapid.

However, I can do \$0.92 and the payment will be sent to you Instantly.

Thanks for your inquiry, have a good one!

THE RULER - February 10, 2018, 10:23 am

User wasted 3+ hours of my time after sending incorrect fees, had me stay up to wait for confirmations on a payment he had sent me for my RSGP. Once it confirmed he decided he didn't need the GP and proceeded to back out. Was adamant that there was nothing he could have done differently and that it wasn't his fault he sent with minimal fees etc, w/e moved on.

Clearly doesn't value others time. Check the Omni rep on his profile to check out who you are really dealing with.
