Thread: [Kaleb | UID = 3384515 | Recovered an IG Account](#)

Cash - January 7, 2018, 5:06 pm

The original owner of the IG @BitchJake was Disinterested (<https://hackforums.net/member.php?action=profile&uid=3575002>) he sold the account to Kaleb (<https://hackforums.net/member.php?action=profile&uid=3384515>) who then sold it to Hendrick (<https://hackforums.net/member.php?action=profile&uid=3274649>) who then sold it to me.

I had access to the account for about 12 hours when I was kicked out of it and the details were changed. I messaged Hendrick that it was recovered and he tried to get it back but couldn't, he refunded me the \$140 LTC.

How do we know Kaleb was the one to recover it? Well Disinterested and and Hendrick we're both very helpful (and Hendrick refunded me \$140) but we got no response from Kaleb.

The bio on the account is now Kaleb's snapchat so it was obviously him who recovered.

Just a heads up to anyone who is looking to deal with him. Shoutout Hendrick for still refunding me, good guy.
