Thread: [Bot farms show yours off](#)

CheeseDooberTEMP - January 8, 2018, 11:10 am

Anyone have bot farms to show off? Don't need to show us what you're botting but show us some profits or fat stacks :)

I'm looking at starting up a small 3-5 bot farm again. Anyone got any tips for the best new clients and scripts?

Silent Uprising - January 8, 2018, 12:14 pm

Posting to see what others show off, pretty interested who runs some decent bot farms here :o

I-I - January 8, 2018, 1:11 pm

Here's my old setup for making Pizzas
Prices are garbage now, not even worth it.

It's laggy because I recorded it on my main computer which was already underload and not prepared for 10 Runescape clients to be running opened with the graphics enabled.

Neighbor - January 8, 2018, 11:44 pm

Don't have any pictures, although used to run a 100+ bot farm and made bills over a course of a weekend. All did other misc stuff, anyways tips? Refer to the thread uptop, I posted several tips.

Xeriant - January 10, 2018, 11:58 am

I'm currently running 9 accounts (3 are behind the other clients)

(Jan 10, 2018 01:01 PM)- Sam - Wrote: [\[CITE\]](#) This proves nothing lmao. Multiple clients open which are completely empty with a screenshot of a stack of cash you pretended to have made.
I wasn't trying to prove anything.

(Jan 10, 2018 01:09 PM)- Sam - Wrote: [\[CITE\]](#) This entire thread was posted to show off your bot farms and you are telling me you posted screenshots trying not to show off? What?

No goldfarmer wants their method crashed and as such I have removed anything that might get my accounts banned or method leaked. I understand that because of this it can be perceived as fake

but for the purposes of this specific thread I don't think the validity of anyone's claims are really an important factor. OP can take from my post what he wishes, but he does see the client I use which was something he was interested in.

EPLS - January 10, 2018, 12:29 pm

Only have one acc running right now, it's decent gold to start a farm, but I've just been using it for an extra \$8-\$20 every night.

Gunna scale up soon, it definitely seems like a game of cat and mouse with Jagex.

You make 8-20M every night from ONE account? That's insane. How long is the bot running every night?

Yes, 20M is about as good as it has gotten for me, though. It can potentially hit a higher number if rng gods are on my side

At 8m-20m a day that's a minimum of 8 hours, the days where I've hit 20m is from consistent 2-3m drops for 8-10 hours. With breaks of course.

I've made 1.027b from this one account alone; you can see why I'd like to scale it up. Still running strong, hopefully I won't log onto a ban until I at least scale up the farm.
(a large chunk of this went to supplies and bonds, though)

I'm assuming this is a gargs account. Shit, I might just start afking there while I play RS3 Imao

gargoyles are amazing money if you have absolutely nothing to do :p

Most likely Zulrah. Gargoyles don't have larger drops, but instead consistent smaller drops that add up to 400-600K an hour.

It could also be another boss assuming he has access to a script that does that specific boss.

I'm confused how you made 43m in 1 day running 9 accounts at Blast Furnace.

Xeriant - January 11, 2018, 3:39 pm

(Jan 11, 2018 02:54 PM)I--I Wrote: [\[CITE\]](#) I'm confused how you made 43m in 1 day running 9 accounts at Blast Furnace.

I'm not running anything at blast furnace, but 43M from blast furnace is very viable assuming you aren't getting banned.

43M is only 4.77M an account. Meaning if you are making 400K-500K an hour you'd only need to run between 10-12 hours a day to achieve that.

Not sure what GP per hour Blast furnace is, but I was running almost 7 accounts at one time and making anywhere around 30-50m in a day. (Not blast furnace, but doing other botting methods.)

I was the one of the lucky ones running blast furnace botfarm back in 2015 and make bonk. I'd estimate 400-500m was made in a couple of weeks.

I can see you're running Dax's script bruh. It says "Profit Mode" instead of leach mode.

EPLS - January 13, 2018, 12:17 pm

Blast furnace seems like a decent farm, but I heard the ban rates are high.

If you run 6 accounts for 10 hours at 400k an hour you're making 24m a day minus whatever bonds go for times 6 accounts = profit made.. it would be really good but also scary because you're account could potentially be banned with all the resources on it

(Jan 13, 2018 01:39 PM)Stakes. So if bonds are 2.8m - 3m your making 6m a day

So if bonds are 2.8m - 3m your making 6m a day You gotta consider how tedious it will be to make a consistent daily profit if half or more of your accounts are banned each day. Blast Furnace is a huge hot spot for botting and subsequently bans.

EPLS - January 13, 2018, 2:07 pm

Not bad, but there are better methods out there rn.

WhatTheSir - January 14, 2018, 3:11 am

What would be the best way to go about starting a bot farm?

Zio426 - January 17, 2018, 11:45 am

(Jan 14, 2018 04:11 AM)WhatTheSir Wrote: [\[CITE\]](#) What would be the best way to go about starting a bot farm?

learn how to bot 4-8 hours dailing withput bans then apply to any skill and adjust break times as needed.
