Yup, he stole this from me since I went first and scammed me. Guys deal with caution he said he'll buy @p.m from me for \$225 and I went first since he was it was on another forum, and got scammed.

The fact he uses the wording "BIN" should have been a dead give away, to me atleast.
But you even as a new member trusted an unreputable member, he has minimal vouches, or credibility.

You new guys gonna consider the Marketplace here like the Wild west or an old arab bazaar.
Not everything is as it seems... Always deal with caution.
