Flu0z - January 10, 2018, 9:54 am

you can't post anything about the deep web.

discussion isn't allowed.

the reason for the policy is so omni doesn't have to deal with loads of shit.

Your website is on the deep/dark web.

Omniscient Wrote: [\[CITE\]](#) Correct. The policy in place is to prevent discussions and promotion of sites on the deep/dark web. That's the intent.

The policy is clear. You share the website or discuss it, and you will face consequences.
