Thread: [CryptoGOD Signals Private Group - Invites.](#)

CryptoWorld! - January 10, 2018, 10:51 am

I have been a member of this group for past 2months and my over all portfolio went up by 335%. Signals and TA's are super good and accurate and they decided to giveaway 10 more invites. So if you're into crypto world and you're interested to learn more about trading and investing then this is the place for you. Sadly its private group but chances like this are great and I hope they do more invites :)

Hey cryptoworld

was also a part of the discord group and really loved the bitmex TA by SHOLLEX also but cant find the invite link anywhere online now.

could you post the invite link to discord main group (free one) not the VIP group or the mutual fund bucket one that shollex runs.

Thanks
