Thread: [Apple iTunes & App Store Google Play Store Reviewers](#)

AnonymousRevenge - January 10, 2018, 4:50 pm

Hey there fellow Hack Forums users!

I'm currently looking for people to leave positive reviews on iPhone apps and Android apps after opening the apps and taking a good look at them, then leaving a good 4-5 sentence review. Compensation starts at \$0.80 and increases as more reviews are left. So the more reviews you leave, the higher your compensation gets!

Join the discord: # / vayyttw

And the Telegram group to be more efficient: t.me/ReviewCentral

Instructions are in the rules section, and shows how you become a verified member so you can start making money!
