Thread: [Host booting on xbox one](#)

schlump - January 10, 2018, 8:39 pm

so say hypothetically i may or may not be trying to boot on cod ww2. However, when i pull ips with cain and abel once im in game i get a shit load of ips other than just the people in my game

Jake???????????????? - January 10, 2018, 8:42 pm

you must be a depressed fella to be host booting in 2018

I doubt anyone has time to explain cain and abel, let alone nobody even uses it anymore

I don't think anyone uses Cain and Abel these days.. If it's console, run Lanc or Console Sniffer. I don't think you should hit kids off on xbox. You don't need to learn how to DDoS for that purpose.
