Do you have iPhone or android phone/device?

Do you want to know what ways you can make money with Snapchat ewhoring aka how much to charge for pics/vids?

Are you looking for Snapchat traffic?

Anything else you're interested in with Snapchat?

1. I use IOS iPhone.
2. Yes, i want to know the basics, like how much you post to the snapchat, like on mystory and such? And how would you sell them your "nudes"? like make a PayPal.me or rocketr and send them nudes every day or do u just make them buy your pack or a few pictures instantly?
3. I found a guide to it but if you have some tips, I would appreciate if u pm me answers to these questions.

Have you set up Snapchat++ on your iPhone?

Some people on HF, I see they do it automatically with PayPal.me link in their story but personally I get like 50-110 a day friend requests (most of them time wasters or shitty assholes) but 1-2 are real and I convert them into sales. I would say it takes about a week maybe 10 days to figure out who are real and who are retarded on Snapchat and after you just block them by reading their first message/or other signs of their communication to you. Once I get a payment, I would send them

"live" pics right there as per 96% their usual request and videos I would send over email or somewhere else depends where are they from.

However, I wanna add also an option for a weekly/bi-weekly/lifetime premium access snapchat ... but so far, I offered couple users and they said they would rather pay 2-3 separate times as they can choose more and what they want.
