Thread: [Pretty good Crypto Trading profits :D](#)

FawkCidy - January 13, 2018, 10:58 am

EDIT: Here are the settings that I use: <http://www.mediafire.com/file/smyg5fmgdiwlsn/trading.zip>

I have been trying out this auto crypto trader (Profit Trailer). It has been running for the last 3-4 days.

This is my profit (trading on Binance)

<https://gyazo.com/d2290cc83881ff03ee2209a2aae26f00>

I actually have another BOT running on my other Laptop - Trading on Bittrex. Also has made about \$400 in the same amount of time.

Hope this is inspiring <3

?

MightyKnight - January 13, 2018, 11:05 am

Congrats. What would the minimum amount of cash to start using the bot?

Lrrr - January 13, 2018, 11:11 am

What bot are you using? Nice profits

Its called Profit Trailer :D

Zack Fair - January 13, 2018, 12:23 pm

Do you just keep it running 24/7 and let it trade for you?

samsepi01 - January 13, 2018, 12:34 pm

Do you have to do any configurations yourself or is it pretty much just a run-and-go kind of thing?
Pretty nice profits for a couple days.

THE NORTH FACE - January 13, 2018, 1:36 pm

look great! I've been looking into a trading that trading bot. Glad to see its working out for u.

Deveser - January 13, 2018, 1:39 pm

i start few days ago , i see this bot working for some people

will you help me if i buy it ?

Camf ? - January 13, 2018, 2:39 pm

Wow nice profits man :D

I didn't know there was bots out there that traded for you. Are they pricey?

FawkCidy - January 13, 2018, 3:18 pm

Its about \$450 for the licence (you have to buy it twice if you want to run it on 2 exchanges)

I spent a lot of time configuring the settings and tweaking them how I like.

I would be willing to share them if anyone wants to try. Just realize that i cannot promise future results.

Thanks for the kind words <3

itsmemario - January 13, 2018, 3:20 pm

Personally use this myself, it looks good like that but trust me u will always have coins in minus profit which when u wanna cash out u will lose money ofc and u don't make as much profit as u think u would based off the daily/weekly stats

Yeah thats true. I'm making money don't get me wrong im just saying this so people don't see ur making \$600 daily and think its actual profit and ur not making any loses or anything from coins that may not sell.

iMario - January 26, 2018, 4:56 pm

That's good profit! Congrats. My friend and I bought Profit Trailer together. He's supposed to set it up but apparently, it is hard and he's having a hard time doing it. It has been a month now. Is it really that hard?

Guys.... You can't predict prices. You need .1 BTC because you will need to lose money to make money. You're playing bustabit with a grand.

You can buy for x price and the bot is just waiting for the right price to sell at...

OT: Good job with earnings!

Thanks bro. I would argue that this is not a round of bustabit as there is nobody trying to take your money here.

I was kind of curious to know if those auto trading bots actually worked or if there was some kind of fee.

SIM-1230922 - February 28, 2018, 3:31 pm

I have a huge issue where a lot of my pairs will gather in DCA and just stay there forever which causes the bot to not perform a lot of trades.

Do you tend to get this as well?
