Thread: [\[Development Thread\] SKY BOT -Automate Python Crypto Trading Bot - Profit Generator](#)

Zinedine Zidane - January 13, 2018, 9:06 pm

After a long time of thinking, I decided it's time to start the development.

I chose to make a Development thread so you guys can follow the status and suggest more stuff.
There is no trading bot on Hackforums, Why not be the first ?

Sky Bot will allow you to automate your coin sell and buy orders without the need to be on the computer all the time; you just need to set your preferences and keep away.

SKY BOT - STRONG CRYPTO TRADING BOT

- [+] Coded in Python
- [+] Automated Bot working 24/7 without interruption
- [+] Works on every trading places like Bittrex, Binance, Cryptopia, Poloniex ...
- [+] Works on Linux, Windows, Mac OS and support x86 and x64 systems
- [+] Analyze all the coins
- [+] Set your own configuration or let the bot decide for you
- [+] Multiple trading strategies
- [+] Automatically receive all the profits and losses trades by SMS or Email

I launched the bot 35 min.

I got 9 orders (don't take in consideration the GRS order because I launched a wrong command and the UKG one too, even if I got profits it was just a test)

Got 5 TP (set at 1.75% each)

and 4 open orders.

Shoot me a P.m as soon as this is on the market <3

TOM - January 18, 2018, 2:53 pm

Looks pretty interesting send me a P.m to when its out to purchase

Zinedine Zidane - January 18, 2018, 4:41 pm

Currently Looking for a TA expert (I do not pretend to not be an expert, but TA isn't my favorite field)

wiz - January 18, 2018, 9:41 pm

Highly interested in this.

shreder - January 18, 2018, 9:45 pm

Interesting indeed can't wait to see when this is out.

?thereum - January 19, 2018, 1:58 am

Posting to check later where this is going, looks great!

Kuldar - January 19, 2018, 3:30 am

Good luck with the project! Will keep an eye on this!

Mommy???????????? - January 19, 2018, 6:52 am

this looks amazing man! really looking forward to it :)

kafka111 - January 19, 2018, 8:22 am

Any news about preorder or something similar. like beta testing....

D?ceived - January 19, 2018, 8:27 am

Really nice piece of software your making here op!

If it's for sale in the future I will purchase!

?heshire - January 19, 2018, 8:33 am

Looks really nice! Really looking forward to see where this goes, and I will definitely be a customer in the near future

Viralboost.io - January 19, 2018, 8:51 am

Looking forward to updates on your bot!

Loopy For You - January 19, 2018, 10:30 am

Clicked URLs from 2 different threads and ended up here. You, sir, are a marketing funnel master. This looks really cool, posting to come back later.

You should ask Bull for TA expert, him or any of his student are amazingly qualified!

Little baguette talk : Merci à toi pour ce projet !

Zinedine Zidane - January 19, 2018, 6:33 pm

(Jan 19, 2018 11:45 AM)Polatic Wrote: [\[CITE\]](#) Looks good, so with this you can set it to autobuy buy coins i.e when theyre oversold and under the bollingerband?

Already done, autobuy when the RSI is below 25 and the price under the BB Band, and autosell at a preset Take profit or at a dynamic take profit.

All these settings can be edited by the customer. You can also choose preset strategies made by myself ?

Btw, I added a picture proof of my order history when the bot is launched and another picture of the Real Time Email notifications.

Best regards

Fiyaa - January 21, 2018, 12:12 am

I'd be interested in buying when this is fully developed!

bCardi - January 23, 2018, 2:03 pm

I'm following, will definitely cop when released.

Dr. Manhattan - January 23, 2018, 2:39 pm

Dude, another awesome project that I've found! Didn't know you were developing such a bot. Keep up the good work and constant updates! Looking forward for what it might do !

GoldShlooger - January 23, 2018, 10:05 pm

Wish I had the money for this

RBH - January 24, 2018, 8:55 am

Can you describe the strategies a bit more?

Ariaa - January 24, 2018, 8:07 pm

I see so much quality in this. Amazing work Op

KingGoose - January 24, 2018, 8:15 pm

Wow, what an awesome project... might have to snag this one if it's on KuCoin

mboy100 - January 24, 2018, 9:06 pm

I will definitely buy, but can I test it before to see if it's more efficient than gunbot and profit trailer?

Cød3ing - January 25, 2018, 3:09 pm

What I never understood about these bots is if they were effective at generating positive income, even at low margins - why sell it?

It means you have a money printing machine and introducing more of the same bots into the market means less profit, assuming they're all calculating when to buy/sell/hold using the same or similar metrics.

I remember reading into AI (neural network AI, that sort of stuff) bots and they weren't really that effective either.

Why do finance teachers give courses to their students on the grounds that they can hit the mili using their skills ?

Why everyone is selling Ebooks that allow you to earn some money while they can just use their ebooks to make money ?

(Jan 25, 2018 09:36 PM)Zinedine Zidane Wrote: [\[CITE\]](#) Why do finance teachers give courses to their students on the grounds that they can hit the mili using their skills ?

I'd assume a finance teacher is educating their students on the topic of finance, the properties of economics and such things - in any case, finance is a relatively general term; that's like saying an IT teacher is going to teach IT, but IT is a very, very diverse field, as is finance.

I'm not sure why you assume that a finance teachers or even professors syllabus would consist of teaching "how to hit the million using these skills"

Because there's a sucker born every minute.

They don't teach you how to hit the milion using their skills but they give you the knowledge to hit it

Anyways, everyone knows the concepts of a bot.

If you are interested it's okay, otherwise the door is open

i have to ask the same thing, i love the text updates

Taserz - February 13, 2018, 6:22 pm

You got a lot of competition when compared to gunbot.

Pre-eminent - February 13, 2018, 7:19 pm

Definitely a nice project, I had a similar idea a few months ago but didn't have the resources to make this.

Wishing you the best of luck with the project :)

FawkCidy - February 13, 2018, 7:24 pm

If this gets released to the public I'll deff be buying.

DropShipper - February 13, 2018, 9:28 pm

Highly interested in beta testing this and reporting analyzed data because this is something that could become extremely huge. Even willing to invest if possible for more development & time.

Zinedine Zidane - *March 8, 2018, 11:27 am*

I am taking a little break about this project.

Hit you up when I'll be back with skybot

dgkush - *March 8, 2018, 11:33 pm*

I would buy a copy please message me when it's done

Muntarii - *April 26, 2018, 2:55 am*

i would like to buy a copy of that ! great job .
message me when its done.

Panhandler - *April 26, 2018, 9:16 am*

Make a good API for implementing trading algorithms and extending the codebase. I would buy and use this if the API design was good enough.

Do you have a Skype or Jabber I can contact you on? I'm interested in following the development of this bot more closely.
