Thread: [New Flash bot for Satoshi Mines \(AS3\)](#)

chrisxmodder - January 14, 2018, 6:12 am

I'm new to flash and actionscript3.

I created a simple design bot in this language.

Here is the result:

Download:

To run need to enable settings.

Open Flash preferences:

Windows: click Start > Settings > Control Panel > Flash Player

Macintosh: System Preferences (under Other) click Flash Player

Linux Gnome: System > Preferences > Adobe Flash Player

Linux KDE: System Settings > Adobe Flash Player

Go to Advanced panel and open Trusted Location Settings.

Click Add + and add the folder where the smas.swf located. Save.

It can work on all platforms, that's why I made it.
