Thread: [Add a Fortnite/EpicGames Subsection](#)

SIM-2501407 - January 14, 2018, 8:14 am

This is very straightforward. Hackforums needs to always be up to date on the newest trends. To keep up to date, HackForums needs to add a section for EpicGames, specifically Fortnite.

I do not think an explanation is needed about this game, but here is a quick Q&A.

What is Fortnite?

It is a Battle Royale game that is very similar to PUBG.

How much is Fortnite?

Unlike PUBG, the game is 100% free.

What platforms is this game on?

XB1, PC, & PS4

Now, Omniscient, this is probably what you care about right here...

How many users are active on Fortnite?

Quote:The game has seen 30 million players total, and over the past weekend managed to reach 1.3 million concurrent users.

Google Word Search Popularity:

See Interest over time on Google Trends for Fortnite, Overwatch, Halo, pubg - Worldwide, Past 12 months - <https://g.co/trends/SYbZd>

Benefit to HF/Summary:

Currently, there is no section for this topic. The game is growing exponentially as EpicGames is constantly updating their game which is entirely free. Having an open discussion on the game will bring this community together more, and will invite more new people to join the forum.

With good SEO of Fortnite, it will drive more people to the forum.

I guarantee it'd be a lot more popular than [Halo's Subsection](#).

I've replied to this thread as well.

Berry Fusion - January 14, 2018, 12:10 pm

I said this in another thread (before some nerd copied me and then got recognition for it smh) and I

will say it here. There should be a combined section for all related games. This would include games like H1Z1: KOTK, PUBG, and Fortnite. Alone each of these games may struggle to be active but together I think it would prove more active than even the Minecraft section for example (which seems to be slowly dying).

iKinky - January 26, 2018, 10:26 am

I second this. Section for battle royal type of games, such as Fortnite. It's a huge game.

Fortunate - January 26, 2018, 10:42 am

I second this as well, will add more activity, new market and more users will join the forum!

Kumara - January 26, 2018, 10:55 am

I'm with this.

The game is definitely growing, fast at that.

Gilbo - January 26, 2018, 11:09 am

This should definitely be added.

It's growing fast as hell.

Only negative thing about the game is the downtime when they maintenance the servers. (Yesterday they were down for 11-12 hours)

Description - January 26, 2018, 11:15 am

Yeah if it's going to be added the time would be now

GenericSkid - January 27, 2018, 12:31 am

Willing to bet that this kind of game is a temporary phase. It may be popular now but I don't see it being nearly as active as any of the other gaming sections for an extended period of time. If the section would be temporary then by all means go on with it.

Kaleb - January 27, 2018, 1:02 am

Probably better off just renaming the battlegrounds section to battle royale.

Soldiercrimes - January 27, 2018, 5:02 am

I have already requested this :p (Jan 14, 2018 09:14 AM)Valor. Wrote: [\[CITE\]](#) This is very straightforward. Hackforums needs to always be up to date on the newest trends. To keep up to date, HackForums needs to add a section for EpicGames, specifically Fortnite.

Pochinki - January 28, 2018, 7:14 am

I say we just rename the PUBG subforums to Battle Royal.

Then have subtitles? with [PUBG] [Fortnite]

I feel like one forum for Battle Royale would be perfect, and then we could add post tags.

Burnzy - January 28, 2018, 11:34 am

i +1 this

the game is a bomb

make forum plox

Fortunate - February 9, 2018, 10:46 am

Bumping this thread since the game just passed PUBG with 3.4 million concurrent players.

Yeah, me too.

Continuous stream of mass amounts of online players and tons of users on HF play.

KOTOR - February 9, 2018, 11:55 am

This games is going die in a few months like DayZ and H1Z1 did.

I really doubt that, as it just passed PUBG(3.2 million concurrent players.) And Fortnite 3.4 million concurrent players.

Starstruck_Temp - February 23, 2018, 5:28 am

I was about to make a thread for this. I second this suggestion.

Agree with this. Battle Royal games are a huge trend and it would be good to make a special section for it instead of making for each game an unique section. Tags like [PUBG] & [Fortnite], [H1Z1] etc. could be used.

According to Steam, many people do.

Wouldn't really say 6,000 is a lot of people ?

Compared to Fortnite 3,7 million concurrent players.

Heart - February 23, 2018, 4:49 pm

It wouldn't hurt to add it.

TB12 - February 23, 2018, 4:49 pm

Battle royal general section, not just fortnite.

I agree, and i noticed that more threads similar to this request exist, would love to see omni opening a battle royal forum to stay updated or atleast respond on any of these threads.

Diabolic - March 1, 2018, 7:30 am

A Battle Royale section in general would be sweet. Since Fortnite has two modes, a section for itself seems justified too.

Plus, more games are adding that kind of mode (red dead redemption 2, next battle field).

Omniscient - March 1, 2018, 11:54 am

Would DayZ be considered a Battle Royale game?

It would, but DayZ itself is basically dead at this point. Whereas it used to have tens of thousands of daily players, it now barely ever surpasses 5k.

In my opinion no, it's a survival game.. When you kill someone doesn't mean you're the winner. They respawn in the same session just fine, battle royale needs a winner. DayZ has no winners?

PrepareU - March 1, 2018, 12:44 pm

Dont forget PUBG and DayZ are both games you need to buy for one, and for two are both games that are/ were ntil shortly only playable on the PC. So ofcourse Fortnite will have a bigger reach, I wonder if the amount of players were counted from all platforms

Other than that I totally support this

Hustla - March 14, 2018, 6:01 pm

I was just about to suggest this until I found this thread. One of the most popular games right this moment.

Dragosthethird - March 14, 2018, 6:18 pm

Had a fortnite section. It got rebranded as Battle Royale under FPS and Military Style Gaming. So we didn't have 50 different Battle Royale style games.

Dragon Of The West - March 14, 2018, 6:21 pm

I also think a battle royal section would be a good addition.

SIM-2501407 - March 14, 2018, 6:28 pm

<https://hackforums.net/showthread.php?tid=5806293>

Omni already updated the gaming section.

This suggestion is no longer valid.
