Obama supports Hillary, vice versa. Hillary supports Bill. Bill admits to mind controlling the public. All democrats.

So tell me how 2.3 trillion dollars was just 'lost' from Pentagon before the 9/11 'terrorist' attack. They staged the attack to get into the middle east, so they had a reason.

Go do some more research. They are trying to bring the USA into a communist country, to promote the New World Order. That's why they loan OUR OWN money to us. They will keep putting us into debt and raise prices on everything so eventually no body has money and they can take over the United States. 1/3 taken out for taxes? That third will keep adding up until they eventually have all the money. The Rockefellers.

And you think that if they did this they would do it so insecure that a nobody like you or the creator of this video could find out? On top of that you have no, absolutely no solid proof at all.

You gotta be kidding me.

They give clues, thats what the illuminati does. Pyramid with eye on \$1 bill? And the roman numerals below the pyramid stand for the date that the illuminati was founded. Bottom line is all of this shit will end soon and Donald Trump is doing a great job at it. Everybody will have money soon.

What government doesn't have some sort of hush hush project? It's a fucking arms race, it's either defend or be killed. On the serious most of these videos are just people acting awkwardly AF or just had odd social moments. Let me show you a stupid example based off a video you posted at 8:01

This thread is the epitome of internet cancer. OP makes a thread, someone responds in disbelief, OP takes offense and defends his position with utmost aggression and immaturity.

If you want civil political debate and discussion, (which it doesn't look like you are looking for to begin with due to the fact you're posting a video from 2015) check out the [Science, Religion, Philosophy, and Politics](#) section. There you'll find people to actually participate in the discussion of this irrelevant matter, and other topics which you may be interested in participating in as well. ?
