Probably because Omni is considering adding another admin on the site and group owners don't feel safe, just my guess.

Idk wat u r talking about lol

Edit: that would inspire confidence not fear

DenizZ - January 14, 2018, 10:20 pm

Huh you own a group? I thought Froggy ewhored you??

B0Trun - January 14, 2018, 10:26 pm

Formula1 you have to wait for the right moment to sell the group , I would say this is not the right time .

But good luck on selling the group , its your own decision

Really? This has nothing to do with anything about new Mods/admins.

OP good luck with the sell buddy.

So, you own Socialites or does Froggy? Was under the impression you gave it to her. Hopefully the group doesn't get sold. It's the one group I was looking forward to sticking around for awhile.

Either way, whatever happens, it's your choice so gl.

Ow rip us haha. Socialites is a nice group, nice graphics and all. Should sell easily.
Of course, i will respect Formula1's choice, just like you will. He did after all let us use it for free without saying a word.

Both myself and Froggy are no longer active on site and decided it's best to move on with our lives

This was the thing I expected the least from Socialites.

Time never stands still, money rolls.

Good choice. Trust me nobody will have a problem with it. You lend us a group for months.
You do you.

Good luck with sales.

Dredd - January 15, 2018, 3:58 am

Oh dang so froggy doesn't own the group, that's the biggest meme you guys pulled off of 2017 grats.

GLWS F1s got car parts to buy this mans group!!!!

Vyxn - January 15, 2018, 5:24 am

Another group being sold? Is there any event coming out?

Anyway, good luck on selling your group. Looks like a pretty solid one. :)

1skra - January 15, 2018, 6:21 am

Not that I'm going to buy it or anything - but how much does a group cost?

Lrrr - January 15, 2018, 9:44 am

How much is the current offer?

Malicious` - January 15, 2018, 9:52 am

Divined's about to buy 2 more groups

Froggy - January 15, 2018, 10:05 am

Can confirm. It was an off-site agreement, where I would be the sole owner in Omni's eyes but the group actually belongs to F1. We agreed he could sell whenever he wanted, and I keep my word.

The amount of off-site agreements and unspoken rules you seem to be privy to is so exciting. You're like a Hillary Clinton in training.

Cringey as fuck. This is what happens when you take HF way too seriously and read into everything like it's Yugioh.
