Thread: [\[CHEAP\] YOUTUBE BOT v1.5 \[SUBSCRIBE/LIKE/DISLIKE/COMMENTS/SCRAPER\]](#)

ThatAlbinoFrog - January 14, 2018, 9:42 pm

Mass Youtube Bot

Over the passed week I've been working on a youtube comment bot, which slowly turned into an all around youtube mass bot. Coded it in vb.net 4.0 and works great.

v1.1

- Added like video function
- Added random delay to bypass spam filter

v1.2

- Fixed crash when videos were removed or comments were disabled

v1.3

- Fixed comments not working when Web browser is hidden
- Added Like / Dislike function
- Added Subscribe function

v1.4

- Added option to comment or not
- Changed layout slightly
- Now an all around youtube bot

v1.5

- Added licensing system
- Added Simple video scraper (can only scrape 20 videos at a time)

v1.6

- Multiple Account Use! (Import emails and passwords from text files)
- Slightly more efficient code
- Layout Changed

[b]v1.7

- Now import accounts from combo textfile (USERNAME:PASSWORD)

[/b]

I'm constantly updating it, and if you need any features added I'm more than happy to add anything you need

Next Feature - Multiple account use, better scraper

Paypal \$10 for Lifetime
PM Me For Purchase

Getting passed the youtube spam filter isn't too hard. I've gained 35 subs and I've only used it three times. Just think outside the box ;)

Still working? Do you include updates for the bot? I would be interested to grab a copy.

cokecaine - *February 13, 2018, 5:20 am*

Nice. Might pick this up in a bit.

Do you accept crypto bro?

Bloodfoldx - *June 10, 2018, 7:19 pm*

May I have a trial? Im mainly using it for the dislike feature. ALso how many accounts can it use?

Jody. - *June 11, 2018, 1:07 am*

Posting for when multiple acc use is available

darkshadowses - *October 5, 2018, 4:20 am*

sounds very interesting, can you please send me a PM so I can buy the latest version

Jimpie - *December 16, 2018, 6:53 am*

Sounds nice, does it still work? do you have a showcase?
